45 Years HUCK

45 years of HUCK,
means 45 years of entrepreneurial spirit
and of HUCK focus on quality

45 years of HUCK,
means 45 years of development in
net technology

45 years of HUCK,
means a good many professional careers.

Dear business colleagues,

Dear sporting colleagues,

Even in times of globalisation Manfred Huck GmbH focuses on local quality. Most of the netting and fibre production for our sports and safety nets originates from our Sächsische Netzwerke Huck GmbH factory in Heidenau, and the safety and stop nets are then finished off in Asslar-Berghausen and our other European plants.

The PP multifilament fibre produced by the company Sächsische Netzwerke Huck GmbH is subjected to the most stringent quality control and is also eco-friendly. This fibre is certified according to Oeko-Tex Standard 100.

The Huck company is also represented at international competitions. Our nets are being used during the 2012 Football European Championships in Poland.

We hope you enjoy perusing our new sports net catalogue no. 53 2012/2013.

With kind regards

Manfred Huck GmbH

Stefan Huck

Contents

Football 1.1 – 1.14

Football goal nets with chequered pattern, football goal nets with hexagonal mesh, exclusive football goal nets, small-meshed football goal nets, shooting target wall, two-colour football goal nets in club colours, junior football goal nets, mini goal sets, Futsal goal nets, ball carrier nets, football goal net accessories

Handball/Hockey 2.1 – 2.8

Handball goal nets with hexagonal mesh, handball goal nets with chequered pattern, two-colour indoor handball goal nets in club colours, indoor handball goal nets, handball goal catch nets, handball goal net accessories, indoor hockey goal nets, field and roller hockey goal nets, floorball goal net

Volleyball 3.1 – 3.6

Volleyball tournament nets with DVV approval, volleyball tournament nets conforming to international regulations, long volleyball nets, volleyball training nets, volleyball antennae, sit volleyball, volleyball net accessories

Badminton 4.1 – 4.3

Badminton tournament nets, badminton net sets, long badminton nets, badminton training nets, badminton net accessories, ball stop nets

Tennis 5.1 – 5.10

"Excalibur" and "Merlin" tennis nets, tennis net accessories, tennis court drag mats, tennis practice net, junior tennis nets, tennis court dividing nets, dividing nets in flame-retardant weave, indoor tennis court panelling, tennis court surrounds, printed advertising

Protection Safety Nets 6.1 – 6.10

Product information, safety and stop nets, safety and stop net accessories, universal barrier fencing, indoor football nets, partition curtains for gymnasiums, playing-area safety nets, ball pools, flame-retardant impregnated safety nets

Other Sports 7.1 – 7.12

Basketball nets, ice hockey goal nets, water polo goal nets, cycle ball/cycle polo goal nets, deck tennis nets, indiaca nets, sand pit cover nets, hammer throwing and discus safety nets, stop nets/practice tunnels for cricket and baseball, stop nets for golf courses, golf practice nets, stop nets for squash courts, archery stop nets, railing nets, seating and hammocks made of polypropylene and Mahulan netting, hammock frames, net climbing course

Ropes and Cords 8.1 – 8.8

Isilink cords, skipping ropes for gymnastics, skipping ropes, Double Dutch skipping ropes, neon skipping ropes, beaded jump ropes, tug of war ropes, balancing/circular rope, climbing ropes, rope seat, gymnastic ring sets, lunge reins, fistball ropes, swing ball ropes, prellball bands, sitball cords, gymnastic cords

Beach & Fun 9.1 – 9.15

Beach volleyball tournament and practice nets, complete beach net kits, beach volleyball accessories, recreational volleyball set, beach badminton, recreational badminton, soccer-tennis nets, junior lawn tennis net, paddle-tennis, beach tennis, beach-combi-set, beach handball/boundary marking, beach football/boundary marking, goal and security nets for small pitches and multi-sports facilities according to EN 15312, street basketball, all-weather net, sun sail

Anti-Vandalism Nets 10.1 – 10.9

Knotless stop nets and practice pitch goal nets with "Mahulan steel" wire-strand core, reinforced Polypropylene volleyball nets, Dralo® volleyball nets, reinforced practice pitch goal nets, Dralo® practice pitch goal nets, nets for playgrounds in residential areas, reinforced Dralo® stop nets, technical information on Dralo® nets

No. 1023-02

Football goal nets with hexagonal mesh

HUCK football goal nets with hexagonal mesh were used during the 2006 world football championship in Germany. As a result of such nets in this special design being well received we now offer an extended range of hexagonal mesh goal nets that includes different depths.

Dimensions: width 7.50 m, height 2.50 m, top depth 0.80 m, bottom depth 2 m.

No. 1021	Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh.
Colour 01: Green	EN € 127,50 per pair
Colour 02: White	EN € 127,50 per pair

Dimensions: width 7.50 m, height 2.50 m, top and bottom depth 2 m.

No. 1023	Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh.
Colour 02: White	EN € 200,— per pair
Colour 05: Yellow	EN € 200,— per pair

Article 102-02 (top depth 80 cm, bottom depth 150 cm) upon request!

Football goal nets with alternating coloration (chequered pattern)

DBGM

Thanks to a new manufacturing technique we can offer knotless nets with hexagonal mesh and **alternating** coloration.

German registered design no. 20 2009 006 107.8

These nets with chequered pattern can be offered in the following sizes and colour combinations.

Dimensions: width 7.50 m, height 2.50 m, top depth 0.80 m, bottom depth 2 m.

No. 1011	Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh (chequered pattern).
Colour 21: White/Green	EN € 136,50 per pair
Colour 24: White/Blue	EN € 136,50 per pair
Colour 27: White/Red	EN € 136,50 per pair

Dimensions: width 7.50 m, height 2.50 m, top and bottom depth 2 m.

No. 1013	Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh (chequered pattern).
Colour 21: White/Green	EN € 215,— per pair
Colour 24: White/Blue	EN € 215,— per pair
Colour 27: White/Red	EN € 215,— per pair
Colour 54: Yellow/Blue	EN € 215,— per pair
Colour 56: Yellow/Black	EN € 215,— per pair
Colour 76: Red/Black	EN (NEW) € 215,— per pair

No. 1013-27

Our football goal nets have the maximum mesh width of 120 mm required by DIN EN 748. Under the latest issue of DIN EN 748 the EN models are no longer restricted to square meshes, such that DIN EN 748 also covers hexagonal meshes.

Small-Mesh Goal Nets (45 mm) - 2coloured **NEW**

Dimensions: width 7.50 m, height 2.50 m, top and bottom depth 2 m.

No. 1053-045 **Knotless** goal net in approx. 3 mm high tenacity polypropylene. **Mesh size: approx. 45 mm.**

NEW

Colour 12: Green/White	EN	€ 200,— per pair
Colour 42: Blue/White	EN	€ 200,— per pair
Colour 72: Red/White	EN	€ 200,— per pair

The small 45 mm mesh size means that the goal nets are hard to be climbed, in accordance with EN 15312, and also makes them good anti-hooligan nets.

Small-Mesh Goal Nets (60 mm)

These anti-hooligan nets protect the goalkeeper from tins and bottles thrown by the crowd and prevent them being used as climbing nets. They also add a touch of class to any sports ground.

Dimensions: width 7.50 m, height 2.50 m, top depth 0.80 m, bottom depth 2 m.

No. 1081-060 **Knotless** goal net in approx. 4 mm high tenacity polypropylene. Mesh size: approx. 60 mm.

Velcro fasteners for quick and easy fastening of nets to goal, see page 1.14

Mini Goal Nets

for goals measuring 1.80 m x 1.20 m

- No. 1200** **Mini goal net** made of approx. 2.3 mm high tenacity polypropylene. **Mesh size: 100 mm.** Includes 2 attachment cords, 8 m long. Dimensions: 1.90 m x 1.30 m, 70 cm deep at the top and bottom.
Colour 01: Green € 25,— per pair
- No. 1201** **Mini goal net** like item 1200-01 but with a **mesh size of 45 mm.**
Colour 01: Green € 33,— per pair

for goals measuring 1.20 m x 0.80 m

- No. 1210** **Mini goal net** made of approx. 2.3 mm high tenacity polypropylene. **Mesh size: 100 mm.** Includes 2 attachment cords, 6 m long. Dimensions: 1.30 m x 0.90 m, 70 cm deep at the top and bottom.
Colour 01: Green € 29,— per pair
- No. 1211** **Mini goal net** like item 1210-01 but with a **mesh size of 45 mm.**
Colour 01: Green € 36,50 per pair

for goals measuring 2.40 m x 1.60 m

- No. 1220** **Mini goal net** made of 2.3 mm high tenacity polypropylene. **Mesh size 100 mm.** Includes 2 attachment cords 8 m long. Dimensions: 2.50 m x 1.70 m, top and bottom depth 100 cm.
Colour 01: Green € 39,50 per pair

for goals measuring 3 m x 1 m

- No. 1221** **Mini goal net** made of 3 mm high tenacity polypropylene. **Mesh size 100 mm.** Includes 2 attachment cords 10 m long. Dimensions: 3 m x 1 m, top and bottom depth 100 cm.
Colour 01: Green € 42,50 per pair

Example of custom-made mini goal net (goal is not available)

for goals measuring 3 m x 1.60 m

- No. 1222** **Mini goal net** made of 3 mm high tenacity polypropylene. **Mesh size 100 mm.** Includes 2 attachment cords 12 m long. Dimensions: 3 m x 1.60 m, top and bottom depth 100 cm.
Colour 01: Green € 45,— per pair

No. 108-27

New trend in sport: FUTSAL

A completely different version of indoor football. The new trend of FUTSAL is played, in contrast to normal indoor football, without bands and with a special ball.

Handball goals are used as goals and we can offer the following net dimensions and qualities:

Dimensions: width 3,10 m, height 2,10 m, top depth 80 cm, bottom depth 100 cm.

No. 108 **Knotless goal net in approx. 3.5 mm high tenacity polypropylene.** With hexagonal mesh and elastic cords, to protect external mesh row, **chequered pattern.**

Indoor handball goal nets with hexagonal mesh

HUCK handball goal nets were used during the 2007 world handball championship in Germany and the 2011 world handball championship in Sweden. Goal nets in a special hexagonal mesh design, which stood out additionally by being yellow, were selected.

In regulation dimensions: width 3.10 m, height 2.10 m, top depth 0.80 m, bottom depth 1 m. Mesh size 10 cm.

No. 111	Knotless goal net in approx. 4.75 mm high tenacity polypropylene, with hexagonal mesh, and additional cord to protect the outer rows of mesh. Colour 05: Yellow € 116,— per pair	No. 108	Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh, and additional cord to protect the outer rows of mesh. Colour 02: White € 71,— per pair
----------------	---	----------------	--

Knotless indoor handball goal nets in high tenacity polypropylene and polyester offer the following advantages:

- High mesh rigidity and high energy absorption
- Easy-to-put-up nets due to lightweight and flexible net structure
- Looks good
- Accurate mesh size due to form-fit net mesh connections
- Little wear/high abrasion resistance

Our handball goal nets fulfil the requirements of DIN EN 749!

They come in a wide range of colours, also including 2-colour team colours (see pages 2.2 and 2.4).

No. 108-21

Handball goal nets with alternating coloration (chequered pattern)

Thanks to a new manufacturing technique we can offer knotless nets with hexagonal mesh and **alternating** coloration.

German registered design no. 20 2009 006 107.8

These nets with chequered pattern can be offered in the following colour combinations.

In regulation dimensions: width 3.10 m, height 2.10 m, top depth 0.80 m, bottom depth 1 m. Mesh size 10 cm.

No. 108

Knotless goal net in approx. 3.5 mm high tenacity polypropylene, with hexagonal mesh and additional cord to protect the outer rows of mesh.

Accessories

Tension cords for indoor handball goal nets

These tension cords fit all our indoor handball and indoor hockey goal nets.

No. 1192	Elastic tension cords, 2 heavy-duty elastic cords with hooks at both ends, 6.50 m long. These tension cords are designed for the section of net attached to the vertical posts and crossbar of indoor handball and indoor hockey goals (the red lines on the sketch). They make the net more elastic and prolong its life.	€ 12,— per pair
No. 1191	Tension cords in approx. 6 mm polyethylene. A set of 4 cords. The top two tension cords are fitted with a quick-release fastener. These tension cords are for goals in which the net is freely suspended inside the frame (the blue lines on the sketch).	€ 14,— per set

No. 1191 blue, No. 1192 red

No. 111-05

"Exclusive" Indoor Handball Goal Nets

In addition to the tension cord at the top, these nets have a tension cord at the bottom to prevent the ball from slipping between the goal frame and the net. The tension cord at the top is fitted with a quick-release fastener.

The section of the net that is hung on the goal frame is fitted **with an additional cord in order to protect the outer rows of mesh.**

Please hang up the nets on this cord and at the top of the net. This can extend the life of the nets significantly!

In regulation dimensions: width 3.10 m, height 2.10 m, top depth 0.80 m, bottom depth 1 m. Mesh size 10 cm.

No. 1131 **Knotless goal net in approx. 4 mm polyester.**

Weighting for Indoor Handball and Indoor Hockey Goal and Catch Nets

No. 2110 **Lead cord** weighting for indoor handball catch and goal nets,
400 g per metre. Already fitted in the webbing of the net.
€ 4,70 per metre

No. 1193 **Chain weights** for indoor handball goal nets, 800 g per metre.
Sheathed in plastic with a hook and tie cord at both ends.
For nets with a depth of 1 m.
Length: 5 m € 47,— each

No. 1193

No. 126-01

Indoor Hockey Goal Nets

Goal nets that can be used for both indoor handball and indoor hockey. Mesh size 4.5 cm. Dimensions: width 3 m, height 2 m, top depth 0.80 m, bottom depth 100 cm.

As the goal net dimensions for indoor handball and indoor hockey are identical, the same nets can be used for both sports!

No. 110	Knotless Indoor hockey goal net in approx. 4 mm high tenacity polypropylene . Mesh size: 4.5 cm. Colour 01: Green € 150,— per pair	No. 126	Knotless Indoor hockey goal net in approx. 5 mm heavy duty, high tenacity polypropylene . Mesh size 4.5 cm. A very flexible net. Colour 01: Green € 213,— per pair Colour 02: White € 213,— per pair Colour 04: Blue € 213,— per pair
No. 125	Knotless Indoor hockey goal net in approx. 3 mm high tenacity polypropylene . Mesh size 4.5 cm. Colour 01: Green € 119,— per pair	No. 127	Knotless Indoor hockey goal net in approx. 2.5 mm high tenacity polypropylene . Mesh size 2.5 cm. Colour 01: Green € 213,— per pair

All indoor hockey goal nets have a additional cord in the goalmouth area.

The goal nets should only be attached to this cord as this lengthens the life of the nets considerably (see photo right).

Additional cord for the protection of mesh edge

Mini hockey goal net in approx. 2 mm high tenacity polypropylene.
Mesh size 4.5 cm.

Available in any size. Price on request.

See page 1.11 for our mini goal nets.

No. 130-01

Field Hockey Goal Nets

Field hockey goal net with a mesh size of 4.5 cm.

- No. 130** **Knotless** field hockey goal net in approx. **3 mm high tenacity polypropylene**. Mesh size 4.5 cm, width 3.66 m, height 2.14 m, top depth 90 cm, bottom depth 120 cm.
Colour 01: Green € 118,— per pair
- No. 1301** **Knotless** field hockey goal net in approx. **4 mm high tenacity polypropylene**. Mesh size 4.5 cm, width 3.66 m, height 1.80 m, top depth 90 cm, bottom depth 120 cm.
In this case the net only comes down as far as the backboard (at the sides and back).
Colour 01: Green € 185,— per pair
- No. 1302** **Knotless** field hockey goal net as no. 1301, but in approx. **3 mm high tenacity polypropylene**, mesh size 4,5 cm.
Colour 01: Green € 115,— per pair

Field hockey goal net with a mesh size of 2.5 cm.

- No. 132** **Knotless** field hockey goal net in approx. **2.5 mm high tenacity polypropylene**. Mesh size 2.5 cm, dimensions as No. 130.
Colour 01: Green € 245,— per pair

Roller Hockey Goal Nets

- No. 131** **Knotless** roller hockey goal net in approx. **3 mm polyester**. Mesh size 4 cm.
Dimensions: 170 cm wide, 105 cm high, **top depth 35 cm, bottom depth 92 cm**, including a hook-on net: 180 x 110 cm.
Colour 02: White € 145,— per pair

See page 7.2 for our ice hockey goal nets.

Floorball

- No. 136** **Knotless** floorball net in approx. **2.3 mm high tenacity polypropylene**. Mesh size 45 mm, 1.60 x 1.15 m, top depth 40 cm, bottom depth 60 cm.
Colour 02: White € 34,— per pair
- No. 137** **Knotless** floorball net (which hooks on) in approx. **2.3 mm high tenacity polypropylene**. Mesh size 45 mm, 1.70 x 1.25 m.
Colour 02: White € 14,50 per pair

Please measure the depth of the goal before ordering to avoid delivery of an unsuitable net.

Floorball Goal Net

- No. 1311** **Knotless** roller hockey goal net in approx. **4 mm polyester**. Mesh size 4 cm.
Dimensions: 170 cm wide, 105 cm high, **top depth 65 cm, bottom depth 110 cm**, including a hook-on net: 180 x 110 cm.
Colour 02: White € 195,— per pair

Volleyball Tournament nets that meet international and DVV I standards

These nets are used for international matches as well as for all competition matches, particularly in the higher categories, from the Landesliga (German State League) and above. They all share the following features:

- **6-point suspension** with 3 quick-release fasteners at each end and fibreglass-reinforced polyester rods sewn into the sides
- **70 mm wide, white headband** with 11.70 m Kevlar cable
- continuous **50 mm wide, white band** along the bottom

9.50 m long, 6-point suspension, fibreglass-reinforced polyester rods sewn into the sides at each end and Kevlar cable (11.70 m long) above with a 70 mm headband and a continuous 50 mm band along the bottom.

No. 5088

Knotless volleyball tournament net in approx. 3 mm high tenacity polypropylene, with Kevlar tension cord (11.70 m long), fibreglass-reinforced polyester rods sewn into the sides at each end, **6-point suspension** and 6 tie cords.
White polyester headband, 70 mm wide, and continuous white polypropylene band, 50 mm wide, along the bottom.
Colour 06: Black € 103,— each

No. 5077

Knotless volleyball tournament net in approx. 4 mm high tenacity polypropylene, with Kevlar tension cord (11.70 m long), fibreglass-reinforced polyester rods sewn into the sides at each end, **6-point suspension** and 6 tie cords.
White headband, 70 mm wide, and continuous white polypropylene band, 50 mm wide, along the bottom.
Colour 06: Black € 108,50 each

All volleyball nets are fitted with a plastic disc at both ends of the net, to prevent the steel or Kevlar cable from accidentally slipping back into the tape (see inset photo above).

Our tournament nets (without printing) have a **woven, extremely heavy-duty** headband. The nets are 9.50 m long and 1 m high, and conform to DIN EN 1271 requirements.

We cannot issue quotes for nets with printed edges (on PVC bands) until we have camera-ready artwork.

Depending on the size of the order, there may be a substantial surcharge for this service and delivery is likely to be 3-4 weeks after approval of the print format.

Please note: If Kevlar cables in other lengths are needed, please state this when ordering!

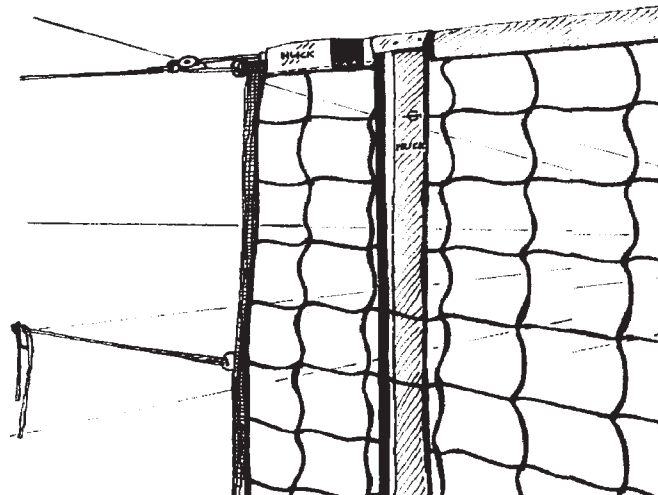

Volleyball Tournament Nets that conform to DVV I standards (with tension pulley)

9.50 m long, **6-point suspension**, fibreglass-reinforced polyester rods sewn into the sides at each end and Kevlar cable (11.70 m long) with tension pulley above. **70 mm wide headband and continuous 50 mm wide band** along the bottom.

No. 5099

This design development **patented by Huck (patent no. P 43 24 767.9-09)** also features a tension pulley at both ends of the Kevlar cable. This system guarantees an even tension across the net. It is also possible to adjust the position of the net to fit the court markings once it has been tensioned.

"Smash" **knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with Kevlar tension cord (11.70 m long), fibreglass-reinforced polyester rods sewn into the sides at each end, **6-point suspension** and 6 tie cords with quick-release fastener as well as a **tension pulley** at each end.
Colour 06: Black € 115,— each

No. 5099: Volleyball Tournament DVV I competition nets.
The pulley on each side of the net ensures a perfectly even tension over the entire area of the net.

Volleyball Tournament nets that meet international and DVV II standards

9.50 m long, **4-point suspension**, fibreglass-reinforced polyester rods sewn into the sides at each end and steel or Kevlar cable (11.70 m long) with a **70 mm headband** and continuous **50 mm band** along the bottom.

No. 5033

Knotless volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **steel cable** (approx. 4 mm thick and 11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **4-point suspension** and 4 tie cords with quick-release fastener.
Colour 06: Black € 84,— each

No. 5034

Knotless volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **Kevlar cable** (approx. 5 mm thick and 11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **4-point suspension** and 4 tie cords with quick-release fastener.
Colour 06: Black € 90,— each

No. 5034-06

Please note: If Kevlar or steel cables in other lengths are needed, please state this when ordering!

DVV-Approved Volleyball Tournament Nets

In contrast to DVV I and DVV II, DVV nets have a 50 mm wide headband and, at the bottom, a band for securing the antennae only at the sides. They can still be used as tournament nets in the lower divisions.

9.50 m long, **4-point suspension**, fibreglass-reinforced polyester rods sewn into the sides at each end and steel or Kevlar cable (11.70 m long) above.

No. 5133 **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **steel cable** (approx. 4 mm thick and 11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **4-point suspension** and 4 tie cords with quick release fastener.
Colour 06: Black € 69,— each

No. 5134 **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **Kevlar cable** (approx. 5 mm thick and 11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **4-point suspension** and 4 tie cords with quick release fastener.
Colour 06: Black € 75,50 each

9.50 m long, **6-point suspension**, fibreglass-reinforced polyester rods sewn into the sides at each end and Kevlar cable (11.70 m long) above.

No. 5166 **Knotless** volleyball tournament net in approx. **3 mm high tenacity polypropylene** with **Kevlar cable** (11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **6-point suspension** and 6 tie cords with quick-release fastener.
Colour 06: Black € 88,50 each

No. 5166: The bottom of the net is reinforced beyond the playing area so that the antenna pockets can be secured properly.

For items 5133-06, 5134-06 and 5166-06

Please note: If Kevlar or steel cables in other lengths are needed, please state this when ordering!

Long Volleyball Nets (for training)

No. 5030 **Knotless** long volleyball net in approx. **3 mm high tenacity polypropylene** with polyester headband. Kevlar cable length: net length + 2 m
Colour 06: Black € 6,70 per metre

No. 5020 **Knotless** long volleyball net in approx. **2.3 mm high tenacity polypropylene** with polyester headband. Kevlar cable length: net length + 2 m
Colour 06: Black € 5,70 per metre

No. 5030-06

Volleyball Training Nets

Regulation dimensions: 9.50 m long, 1 m high, mesh size 10 cm, **steel or Kevlar cable, or nylon tie cord** (11.70 m long).

- No. 509** Volleyball net in approx. **2 mm polyethylene cord**, 9.50 m long, 1 m high, **with nylon tie cord**.
Colour 06: Black € 23,— each
- No. 501** Volleyball net in approx. **2 mm polyethylene cord** with **3 mm steel cable**.
Colour 06: Black € 30,50 each

- No. 503** Volleyball net in approx. **3 mm high tenacity polypropylene** with **4 mm steel cable**. Heavy-duty design.
Colour 01: Green € 44,50 each
Colour 06: Black € 44,50 each
- No. 5032** Volleyball net in approx. **3 mm high tenacity polypropylene** with **11.70 m Kevlar cable**. Heavy-duty design.
Colour 06: Black € 52,— each

The reinforced edges of all training nets are made of high quality UV-resistant material.

"Exclusive" Training Net

- No. 5011** Volleyball net in approx. **2.3 mm high tenacity polypropylene**, reinforced all round with tarpaulin, 11.70 m steel cable above, fibreglass-reinforced polyester rods sewn into the sides, additional tie cords on all four corners.
Colour 06: Black € 51,— each

Quick Assembly Training Nets

With school volleyball in mind, we have designed a practice net that can be set up very quickly (1 minute). It is made of polyethylene Raschel fabric and is approx. 70 cm high. There is a 50 cm long elastic loop in each corner but no steel cable or reinforced surround.

- No. 511** Training net for quick assembly, **length 10 m**.
Colour: Green with white selvage € 22,50 each
- No. 512** Training net for quick assembly, **length 3.50 m**.
Colour: Green with white selvage € 14,50 each

Other lengths available upon request.
Items 509-515 cannot be supplied with steel or Kevlar cables.

... and the professional versions:

- No. 515** Training net for quick assembly, 0.40 x 10 m, made of **reinforced Raschel fabric with reinforced headband**. Tensioning of the net is improved by PES rods at the sides, the tension cord with Clamcleat cleat along the top and elastic loops with snap hooks fitted at the bottom on both sides.
Colour 01: Green € 36,— each

No. 5011-06

No. 511

No. 515-01

Volleyball Antennae

According to the rules of international volleyball, antenna pockets must incorporate a white strip, 5 cm wide, which serves as a boundary marker, and a black pouch for the antenna. The white boundary marker and black pouch must form a complete unit (see photos).

No. 502 **One-piece volleyball antennae** with DVV approval. Length 1.80 m. Supplied **complete with coated polyester pockets** and boundary marker. € 30,— per pair

No. 5021 **Two-piece volleyball antennae.** Length 1.80 m. Supplied complete like item 502. DVV approved. **Improved design: the join is extremely stable, which increases the stability of the equipment (see photo in the bottom right-hand corner).** € 33,— per pair

The new woven Polyester support pocket can even withstand extreme loads, such as e.g. this attack.

Volleyball Antennae without Pockets

No. 5025 **One-piece volleyball antennae**, length 1.80 m, **without pockets.** € 12,50 per pair

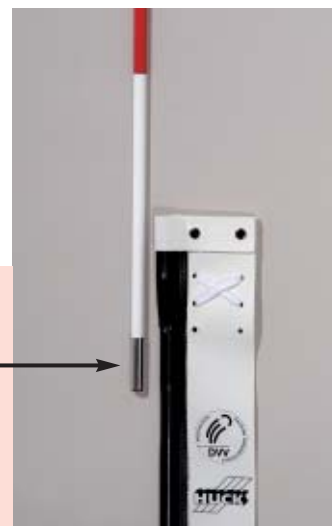

No. 5026 **Two-piece volleyball antennae, length 1.80 m, without pockets.** € 15,50 per pair

Antenna Pockets

No. 5023 High frequency **welded pockets** for volleyball antennae with **coated polyester** boundary marker. € 18,— per pair

No. 5053 **Integrated pockets** with DVV approval, as no. 5023, **but already fitted to net.** € 23,— per pair

Improved design: the two pieces meet in the protected part of the pouch and the join is extremely stable.

No. 5021

International Volleyball Federation rules state that only one-piece net antennae may be used at official tournaments.

According to the DVV testing body for materials, two-piece antennae with a stable join in the protected part of the pouch are also permitted. Our two-piece antennae meet these safety standards.

Sit Volleyball Net (size: 0.80 x 6.50 m)

NEW

No. 5266 **Knotless volleyball tournament net** in approx. **3 mm high tenacity polypropylene** with **Kevlar cable** (11.70 m long). Fibreglass-reinforced polyester rods sewn into the sides at each end, **6-point suspension** and 6 tie cords with quick-release fastener. Colour 06: Black € 85,— each

NEW

Sit Volleyball Net with printed headband upon request.

Net Accessories

- No. 535** **Tie cords** for DVV I and II-approved volleyball nets with quick-release fastener, 2 m long (see photo). 4 or 6 cords required per net. These cords can only be used with volleyball nets that have fibreglass polyester rods at the sides.

€ 4,60 each

- No. 537** **Spare tensioner**, black, for tensioning the net (see photo).
€ 1,80 each

No. 537/535

Spare parts for retrofitting volleyball nets.

- No. 5020** Volleyball **antenna pockets** with **Velcro fastening** for a quick and easy attachment to net.

€ 19,— per pair

- No. 9082** **Spare cable** in 4 mm dia. galvanised **steel**, length 11.70 m with 2 loops.

€ 13,— each

- No. 9083** **Spare tensioning cable** in **Kevlar** aramid fibre, length 11.70 m, with 2 loops.

€ 16,— each

- No. 9084** Surcharge for supplying volleyball nets with 11.70 m long **Kevlar cable** (instead of steel cable).

€ 7,— each

No. 5020

No. 9082 + 9083

Huck solutions to the problem of storing and transporting nets.

- No. 530** **Frame** for rolling volleyball nets.

€ 17,50 each

- No. 540** **Bag** for carrying volleyball nets made of lightweight nylon. Ideal for transporting and storing volleyball nets.
Length: 1.05 m
Diameter: 25 cm

€ 10,50 each

No. 530

No. 540

Badminton Tournament Nets

Badminton tournament nets conforming to **DIN EN 1509**.

Dimensions: length 6.02 m, height 0.76 m, mesh size approx. 18 mm, 8 m Kevlar cable, sides reinforced with polyester rods.

- No. 6001** Badminton tournament net conforming to DIN EN 1509 in approx. **1.2 mm high tenacity polypropylene**. Mesh size approx. 18 mm.
Colour 06: Black € 36,50 each
- No. 6021** Badminton tournament net conforming to DIN EN 1509 in approx. **1.8 mm high tenacity polypropylene**. Mesh size approx. 18 mm.
Colour 06: Black € 45,50 each

No. 6001, No. 6021

Badminton nets manufactured to order (including shorter ones) are subject to a surcharge.

See page 4.2 for sets of nets!

All badminton tournament nets are fitted with a plastic disc at both ends of the net, to prevent the steel or Kevlar cable from accidentally slipping back into the tape. All badminton tournament nets have an extra strong headband (but no belt tensioner).

Badminton tournament nets in international dimensions: length 6.02 m, height 0.76 m, mesh size approx. 18 mm, 6.60 m long steel or Kevlar cable.

- No. 600** "Champion" badminton tournament net in approx. **1.2 mm high tenacity polypropylene**, mesh size approx. 18 mm, with **steel cable**, 6.60 m long, but no polyester rods.
Colour 06: Black € 28,50 each
- No. 601** "Champion" badminton tournament net as no. 600, but with **Kevlar cable**, 6.60 m long, no polyester rods.
Colour 06: Black € 33,— each
- No. 602** "Perfect" badminton tournament net in approx. **1.8 mm high tenacity polypropylene**, mesh size approx. 18 mm, with **steel cable**, 6.60 m long, but no polyester rods.
Colour 06: Black € 35,50 each
- No. 603** "Perfect" badminton tournament net as no. 602, but with **Kevlar cable**, 6.60 m long, no polyester rods.
Colour 06: Black € 40,— each

No. 6001, No. 6021

Sets of Badminton Nets

Our "Champion" and "Perfect" badminton tournament nets are also available as part of a set, each consisting of two, three or four nets without polyester rods on a long Kevlar cable.

No. 60002-06	2 nets: No. 600 'Champion', Kevlar cable length: 15 m.	€ 69,50 per set
No. 60003-06	3 nets: No. 600 'Champion', Kevlar cable length: 23 m.	€ 104,25 per set
No. 60004-06	4 nets: No. 600 'Champion', Kevlar cable length: 31 m.	€ 139,— per set
No. 60202-06	2 nets: No. 602 'Perfect', Kevlar cable length: 15 m.	€ 78,50 per set
No. 60203-06	3 nets: No. 602 'Perfect', Kevlar cable length: 23 m.	€ 118,25 per set
No. 60204-06	4 nets: No. 602 'Perfect', Kevlar cable length: 31 m.	€ 157,— per set

Badminton Training Nets

No. 6000	"Champion" long badminton net. Length of the Kevlar cable: length of the net + 0.60 m. Colour 06: Black	€ 6,60 per metre
No. 6020	"Perfect" long badminton net. Length of the Kevlar cable: length of the net + 0.60 m. Colour 06: Black	€ 7,20 per metre

Please note: If Kevlar cables in other lengths are needed, please state this when ordering!

No. 532, No. 533

Badminton Accessories

- No. 532** **Belt and tensioning device** with ratchet mechanism for badminton and volleyball nets. Tensioning device consisting of 25 mm polyester belts, which can be fitted at either side, and integral ratchet for tensioning. On one side, fixed belt, 90 cm long, with hook and on the other, adjustable belt, also 90 cm long, with hook.
- To tighten:** lock the tensioning lever of the ratchet mechanism
- To release:** release the lock in the tensioning lever, open the tensioning lever completely until it reaches a horizontal position and snap the lock into place in the 2 grooves of the belt roller.
- € 12,75 each

- No. 533** **Belt tensioner with clamp lock** and 2 hooks consisting of a 25 mm polyester belt, 100 cm long when extended, with large hand loop, 1 clamp lock and 2 hooks.
- Tensioning: 15 – 60 cm. € 7,35 each

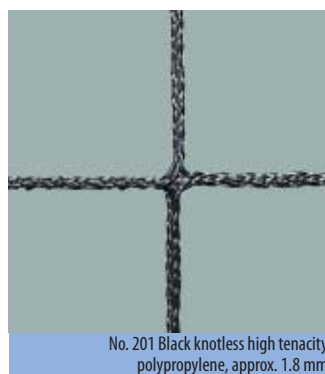

- No. 2105** **Kevlar tension cable**, approx. 5 mm, for badminton nets.
- € 1,20 per metre

No. 2105

Badminton Training Nets

- No. 607** Badminton net in approx. **1.2 mm high tenacity polypropylene** with nylon tension cord, 6.10 m long, 76 cm high, 20 mm mesh, reinforced all the way around.
- Colour 06: Black € 17,— each

No. 201 Black knotless high tenacity polypropylene, approx. 1.8 mm

Shuttlecock Catch Net

- No. 201-020** **Knotless shuttlecock catch net** in approx. **1.8 mm high tenacity polypropylene** with a mesh size of 20 mm and fixed selvage.
- Colour 02: White € 4,20 per m²
- Colour 06: Black € 4,20 per m²

Surcharge for smaller nets:

For each net below 5 m²: 100 %

For each net below 10 m²: 35 %

For each net below 20 m²: 20 %

See product information on pages 6.3 and 6.4.

A tennis net of the pioneering generation, No. 8091 Merlin.

Tennis Nets

The dimensions of our standard nets for doubles courts conform to ITF (International Tennis Federation) and DTB (German Tennis Federation) regulations: 12.72 m x 1.07 m (imperial: 42 ft x 3.5 ft) for installation dimensions that comply with DIN EN 1510.

The headband is made of extremely durable woven polyester and UV-resistant. The nets are fitted with a steel wire cable encased in plastic (13.20 m long) and can be used with all new net posts.

Thanks to our knotless manufacturing technique and square mesh, HUCK tennis nets are aesthetically pleasing as well as practical (e.g. improved visibility).

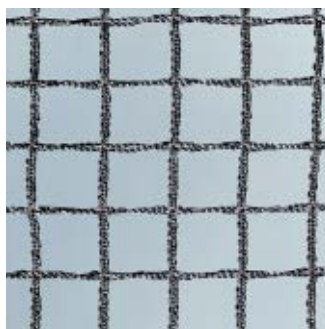

Our nets can also be supplied for singles courts for a surcharge. All tennis nets can be supplied with an integrated centre strap (see page 5.4).

"Merlin" represents the second generation of knotless square-meshed nets. It follows **"Excalibur"** and is designed to meet very high quality standards. In addition to standard quality features such as:

- **the fixed mesh** produced by our knotless manufacturing technique
- **high dimensional stability**
- **optimum visibility** with no rows of double mesh (most international tennis tournaments use single-mesh nets),

this net is made of thicker material and therefore heavier so it "falls" better.

No. 8081	"Excalibur" tennis net in approx. 2.5 mm polyester.
	Colour 01: Green € 82,— each
	Colour 06: Black € 82,— each
No. 8091	"Merlin" tennis net in approx. 3.5 mm polyester.
	Colour 01: Green € 127,— each
	Colour 06: Black € 127,— each

No. 8081-06

No. 8091-06

Important: If longer steel cables are needed (especially for older sets of posts), please specify when ordering!

We do not undertake repairs on tennis nets from other manufacturers!

No. 8031-06

Tennis Nets

Tennis nets with no rows of double mesh in regulation ITF and DTB doubles court dimensions: 12.72 m x 1.07 m (imperial: 42 ft x 3.5 ft), for installation dimensions that comply with DIN EN 1510.

Weight per m²: approx. 490 g
 Colour 06: Black € 7,50 per m²
- No. 915** **Close-meshed coated polyester netting** for tennis court drag nets.
Mesh: 2 x 2 cm
Rolls: approx. 2 x 25 m = 50 m²
Weight per roll: 50 kg
Weight per m²: 1 kg
 Colour 06: Black € 10,85 per m²

No. 915-06, 916

Junior Tennis Nets with Posts

For a set of posts measuring 0.70 x 6 m:

- No. 940** **Set of freestanding posts.** Tubular steel posts, galvanised in gold, that fit together. Diameter approx. 25 mm.
Size: 0.70 x 6 m. € 94,— per set
- No. 934** **Junior tennis net** in approx. 1.5 mm high tenacity polypropylene, mesh size 30 mm. Tarpaulin pouches at the sides, elastic net cord at the top **for rapid and optimal adjustment of the net tension.**
Size: approx. 0.70 x 6 m.
Colour 06: Black € 34,— each
- No. 830** **Junior Tennis net** in rotproof polyethylene.
Size: approx. 0.70 x 6 m.
Colour 01: Green with white edging. € 11,— each

No. 940 + No. 934

For a set of posts measuring 0.70 x 3 m:

- No. 941** **Set of posts** like item 940 but 0.70 x 3 m. € 80,— per set
- No. 935** **Junior Tennis net**, like item 934 but 0.70 x 3 m.
Colour 06: Black € 27,— each
- No. 831** **Junior Tennis net**, like item 830 but 0.70 x 3 m.
Colour 01: Green with white edging. € 9,50 each

No. 941 + No. 831

- No. 636** **Net ballast bag** made of small woven HDPE bands.
Ballast not included. € 4,30 each

- No. 933** **Junior Tennis net**, in approx. 2.3 mm high tenacity polypropylene.
Size: 0.80 m x 6 m.
Colour 06: Black € 43,50 each

**For beach and street tennis equipment,
see Beach & Fun on pages 9.9 and 9.10.**

No. 220-01

Standard Dividing Nets for indoor and outdoor tennis courts

Additional features included in the price:

a) Steel wire cable, approx. 4 mm thick and 38 mm long, with a turnbuckle at each end.

b) Lead cord weighting, 200 g per m, encased in PES webbing and attached to the net.

c) Split nylon rings, 3 per m, attached to net.

No. 220 **Dividing net** in approx. **2.3 mm** high tenacity polypropylene, mesh size 4.5 cm.
 Dimensions: approx. **40 x 2.50 m**.
 Colour 01: Green € 357,50 per panel
 Colour 015: Dark Green € 357,50 per panel
 Colour 02: White € 357,50 per panel

No. 221 **Dividing net**, like item 220 but **40 x 3 m**.
 Colour 01: Green € 410,— per panel
 Colour 015: Dark Green € 410,— per panel
 Colour 02: White € 410,— per panel

We recommend dark green (colour 015) and white (colour 02) for indoor courts and green (colour 01) for outdoors.

No. 2205 **Freestanding telescopic support posts** for standard dividing nets. Fully adjustable between 2 and 3 m.
 € 26,50 each

In order to protect the lower part of the net, items 2201 and 2211 have a strip of plastic-coated polyester, approx. 15 cm wide, along the bottom. These nets do not have lead cord weighting.

No. 2201 **Dividing net** in approx. **2.3 mm** high tenacity polypropylene, mesh size 4.5 cm.
 Dimensions: approx. **40 x 2.50 m**.
 With a **strip of plastic-coated polyester, approx. 15 cm wide**, along the bottom.
 Colour 015: Dark Green € 357,50 per panel
 Colour 02: White € 357,50 per panel

No. 2211 **Dividing net** like item 2201 but **40 x 3 m**.
 Colour 015: Dark Green € 410,— per panel
 Colour 02: White € 410,— per panel

Standard Dividing Nets with flame retardant finish

Additional equipment included in the price:

a) Steel wire cable, approx 4 mm thick and 38 m long, with a turnbuckle at each end.

b) Lead cord weighting, 200g per m, encased in PES webbing and attached to the net.

c) Split nylon rings, 3 per m, attached to the net.

No. 220F	Dividing net in 2.3 mm high tenacity polypropylene, in flame retardant finish. Mesh size approx 4.5 cm. Dimensions: approx. 40 x 2.50 m Colour 015: Dark green Colour 02: White	 € 394,50 each € 394,50 each
-----------------	---	--

No. 221F	Dividing net like item 220F, but 40 x 3 m. Colour 015: Dark green Colour 02: White	 € 454,50 each € 454,50 each
-----------------	---	------------------------------------

Dividing Nets in custom sizes

No. 200-045	Safety net made of approx. 2.3 mm high tenacity polypropylene, mesh size approx. 45 mm. Colour 01: Green Colour 015: Dark green Colour 02: White	 € 3,30 per m ² € 3,30 per m ² € 3,30 per m ²
No. 200F045	Safety net made of approx. 2.3 mm high tenacity polypropylene, flame retardant finish , mesh size approx. 45 mm. Colour 015: Dark green Colour 02: White	 € 4,10 per m ² € 4,10 per m ²

For hanging and tensioning the nets, we recommend:

No. 2102	Steel wire cable , zinc-coated, 4 mm thick.	€ 0,95 per metre
No. 2111	Lead cord encased in webbing fixed to net, 200g per metre.	€ 3,65 per metre
No. 2122	Split nylon rings , ø 9 mm, length 53 mm, width 30 mm, inner length 35 mm, black, 3 rings attached to net per metre.	€ 2,50 per metre

Surcharge for smaller nets:

For each net below 5 m² + 100 %

For each net below 10 m² + 35 %

For each net below 20 m² + 20 % per single net.

Tennis Court Surrounds and Indoor Panelling

Our surrounds and indoor panelling are manufactured from breathable polyethylene and therefore do not damage fencing. Ideal for advertising.

No. 700	Standard tennis court surround, 200 g/m², 12 m long, 2 m high, breathable. Reinforced all the way round with metal eyelets about every 50 cm. 56 snap hooks supplied loose with every surround.
Colour 010: Light Green	€ 81,50 each
Colour 015: Dark Green	€ 81,50 each
Colour 04: Blue	€ 81,50 each
Colour 07: Red	€ 91,50 each
Colour 86: Cream	€ 91,50 each

No. 710	Tennis court surrounds/indoor panelling, 200 g/m², in any dimensions. Polyethylene fabric reinforced all the way around with metal eyelets about every 50 cm. Also supplied with snap hooks for hooking onto the steel cable. Optional: a hollow seam, approx. 5 cm wide, along the bottom to hold a lead cord (see page 6.6).
Colour 010: Light Green	€ 5,10 per m ²
Colour 015: Dark Green	€ 5,10 per m ²

Surcharge for smaller quantities:
 nets under 5 m² + 100 % per net, nets under 10 m² + 35 % per net,
 nets under 20 m² + 20 % per net

When ordering loose hanging nets, the required length must be increased by the following amounts based on the mesh size:

- a) Mesh of up to 45 mm: 20 %
- b) Mesh of 60 - 100 mm: 15 %
- c) Mesh of 110 - 150 mm: 10 %

Polypropylene is recommended for outdoor use. All nets have a fixed selvage of approx. 5 - 7 mm included in the price per square metre (*) except item 1203-010 in black.

(*) Item 1203-010 in black = diagonal mesh design, cut lengths only.

Standard Stop Nets

Safety and stop nets supplied by the metre in any length. Width: 5 m.

No. 2140-120 High tenacity polypropylene, approx. **3 mm**, mesh size 12 cm.
Colour 01: Green € 1,50 per m²

No. 2142-120 High tenacity polypropylene, approx. **4 mm**, mesh size 12 cm.
Colour 01: Green € 2,40 per m²

Surcharge for smaller quantities:

nets under 5 m² + 100 % per net

nets under 10 m² + 35 % per net

nets under 20 m² + 20 % per net

All nets have a fixed selvage of approx. 5 - 7 mm included in the price per square metre.

See pages 6.1 and 6.2 for details of our safety and stop net materials and colours.

Net Edge Cords

a) Incorporated in the net

No. 2130	Polyethylene rope, 6 mm	
	Colour 01: Green	€ 0,55 per metre
	Colour 03: Orange	€ 0,55 per metre
	Colour 06: Black	€ 0,55 per metre
No. 2131	Nylon rope, 5 mm	
	Colour 02: White	€ 0,55 per metre
No. 2132	Nylon rope, 8 mm	
	Colour 02: White	€ 1,— per metre
No. 2136	Nylon rope, 12 mm	
	Colour 02: White	€ 1,55 per metre

b) Supplied loose

No. 21300	Polyethylene rope, 6 mm	
	Colour 01: Green	€ 0,40 per metre
	Colour 03: Orange	€ 0,40 per metre
	Colour 06: Black	€ 0,40 per metre
No. 21310	Nylon cord, 5 mm	
	Colour 02: White	€ 0,40 per metre
No. 21320	Nylon rope, 8 mm	
	Colour 02: White	€ 0,65 per metre
No. 21360	Nylon rope, 12 mm	
	Colour 02: White	€ 1,20 per metre

All safety and stop nets can be supplied with the following features:

For tensioning and suspension of our nets,

we recommend our galvanised steel wire cables with cable eyes and a turnbuckle at each end:

No. 2100	Galvanised steel wire cable, 6 mm.	€ 1,35 per metre
No. 2101	Plus cable eyes and turnbuckle at both ends of the 6 mm cable.	€ 17,35 extra charge
No. 2102	Galvanised steel wire cable, 4 mm.	€ 0,95 per meter
No. 2103	Plus cable eyes and turnbuckle at both ends of the 4 mm cable.	€ 14,— extra charge
No. 2097	Steel wire cable, PVC-coated, 5/7 mm thick	€ 1,40 per metre
No. 2099	Steel wire cable, PVC-coated, 4/5 mm thick	€ 1,35 per metre
No. 2098	Steel wire cable, PVC-coated, 3/4 mm thick	€ 1,10 per metre

For weighting our nets,

a lead cord encased in webbing and attached to the net:

No. 2110	Weight 400 g per metre.	€ 4,70 per metre
No. 2111	Weight 200 g per metre.	€ 3,65 per metre
No. 2112	Lead cord weighting, 200 g per metre, attached to the net without webbing.	€ 2,30 per metre

For suspending nets

so that they move freely on the steel wire cable:

No. 2122	Split nylon rings, 9 mm in diameter, 53 mm long, 30 mm wide, inside length 35 mm, black, 3 rings attached to the net per metre.	€ 2,50 per metre
No. 2123	Split nylon rings, loose.	€ 0,47 each

For additional protection

and for securing nets to existing borders or straps:

No. 2116	Net surround made of polyester webbing, 100 mm wide. (50mm wide when folded back) Colour 02: White	€ 3,50 per metre
-----------------	---	------------------

Universal Barrier Fencing

Quick and economical to erect and easy to transport, this barrier fencing is ideal for marking out boundaries at sports events. It is made of breathable lightweight material, requires very little space for storage and transport and is easily moved. No posts necessary.

No. 7010-01	Barrier fence made of green UV-resistant polyethylene. The posts are made of flexible fibreglass-reinforced polyester, 9 mm in diameter and woven into the material so they cannot be lost.	€ 62,50 each complete
--------------------	---	-----------------------

Length of fence	20 m
Fence height (fabric)	80 cm
Length of pole	1.10 m
Distance between poles	1.80 m
Total weight	3.30 kg
Complete with 4 ground anchors and tension cords for securing the corners.	

Indoor Football Stop Nets

When using conventional halls and indoor tennis courts for indoor football and other fun sports, stop nets are needed to protect spectators and facilities from stray balls. The photo at the top of the page shows safety nets 212-100-01 and 200-100-02 being used to protect the sides and roof of a hall respectively.

No. 212-100 Safety net made of approx. **5 mm high tenacity polypropylene**, mesh size 100 mm.
 Colour 01: Green € 3,60 per m²
 Colour 03: Orange € 3,60 per m²
 Colour 06: Black € 3,60 per m²

No. 200-100 Safety net made of approx. **2.3 mm high tenacity polypropylene**, mesh size 100 mm.
 Colour 02: White € 1,65 per m²

Surcharge for smaller quantities:

- + 100 % per net under 5 m²
- + 35 % per net under 10 m²
- + 20 % per net under 20 m²

See page 9.13 for nets for small outdoor playing areas.

See pages 6.3 and 6.4 for other materials and colours.

No. 200-045-04 + No. 720A-04

No. 200-045-02 + No. 7710-02

Partition Curtains for Gymnasiums

The lower section of net can be replaced by breathable fabric to make them more opaque.

No. 200-045 Safety net in approx. **2.3 mm high tenacity polypropylene**.
Mesh size 45 mm.

Colour 01: Green	€ 3,30 per m ²
Colour 015: Dark green	€ 3,30 per m ²
Colour 02: White	€ 3,30 per m ²
Colour 04: Blue	€ 3,30 per m ²

No. 720A Breathable plastic tarpaulin in **double-ribbed polyethylene fabric**, approx. **200 g/m²**, reinforced with tape all around.

Colour 010: Light green	€ 4,35 per m ²
Colour 015: Dark green	€ 4,35 per m ²
Colour 02: White (NEW)	€ 4,35 per m ²
Colour 04: Blue	€ 4,35 per m ²
Colour 86: Creme (NEW)	€ 5,— per m ²

No. 7222 Tarpaulin 720A **attached/sewn** on to safety net 200-045.
€ 4,35 per meter

... with flame-retardant properties

The nets and sheets have been tested and meet the requirements of DIN 4102 (highly fire-resistant material).

No. 200F045 Flame-retardant safety net in approx. **2.3 mm high tenacity polypropylene**.

Mesh size approx. 45 mm.

Colour 015: Dark green	€ 4,10 per m ²
Colour 02: White	€ 4,10 per m ²
Colour 04: Blue	€ 4,10 per m ²
Colour 06: Black	€ 4,10 per m ²

No. 7710 Breathable plastic tarpaulin in **high tenacity polypropylene**, approx. **510 g/m²** in tightly woven, flame-retardant fabric, and selvedge all the way round.

Colour 01: Green	€ 13,50 per m ²
Colour 02: White	€ 13,50 per m ²
Colour 04: Blue	€ 13,50 per m ²

No. 775 Breathable plastic tarpaulin in **high tenacity polypropylene**, approx. **320 g/m²**, flame-retardant fabric, and selvedge all the way round.

Colour 015: Dark green	€ 7,25 per m ²
Colour 04: Blue	€ 7,25 per m ²

No. 7222 Tarpaulin 7710/775 **attached/sewn** on to safety net 200F045.
€ 4,35 per meter

As these combinations of netting and tarpaulin have to be manufactured individually for each sports hall, please enquire about an entire solution **in advance**.

The nets/tarpaulins are not the same size as the area to be covered and the actual size you require must be calculated first.

Prices excluding VAT

Surcharge for smaller quantities:

- + 100 % per net/tarpaulin under 5 m²,
- + 35 % per net/tarpaulin under 10 m²,
- + 20 % per net/tarpaulin under 20 m².

Play Area Safety Net

Nets are the ideal way to secure all sorts of play areas from ball pools to multi-trampoline facilities. We supply our knotless netting in a variety of colours to suit every facility.

No. 209-045 **Knotless net** made of approx. **3 mm high tenacity polypropylene**, mesh size 45 mm.
For colours, see table on page 6.3. € 4,10 per m²

Surcharge for smaller quantities of No. 209, 209S, 209F + 204F:
nets under 5 m² + 100 % per net
nets under 10 m² + 35 % per net
nets under 20 m² + 20 % per net per individual net.

No. 209-045-05 Play Area Safety Net

'No-Climb' nets makes the nets more difficult to climb, thus providing additional safety.

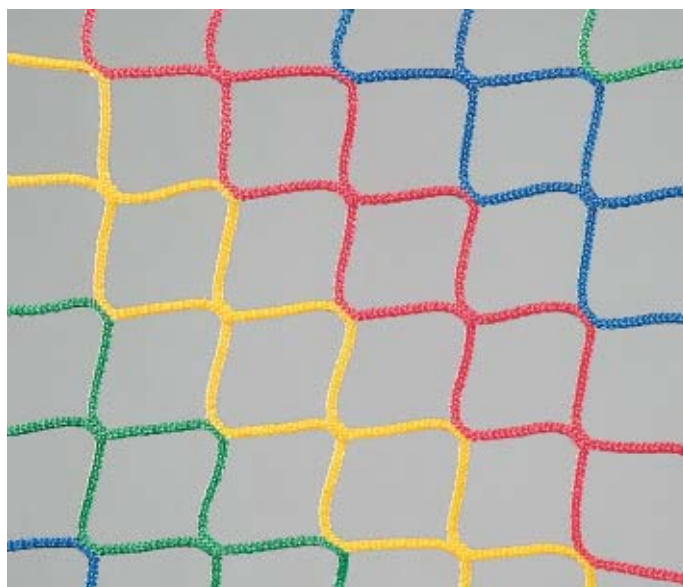

No. 204F008 **Knotless netting** in approx **1.8 mm PES**, mesh size approx. **8 mm, hexagonal, in flame-retardant finish.**
Colour 06: Black € 8,25 per m²

Children love colours!

So we have designed a net that is blue, red, yellow and green. It is totally safe and really stands out making it an attraction in itself!

No. 209S045 **Stiff knotless netting** in approx. 3 mm high tenacity polypropylene, mesh size 45 mm.
Colour 4F: Blue/Red/Yellow/Green € 5,30 per m²

No. 209F045 **Knotless netting** in approx. 3 mm high tenacity polypropylene, mesh size 45 mm, **in flame retardant finish.**
Colour 4F: Blue/Red/Yellow/Green € 5,60 per m²

No. 209F045-4F

Ballpool

No. M4634 **Ballpool** with a frame made of galvanized 28 mm tubes. The roof is made from a tear-resistant polyethylene coated tarpaulin, the net is made from approx. 2.3 mm high tenacity polypropylene, mesh size 45 mm with ground net and access. Total diameter: 3 m
Total height (to the top): 2.50 m
Without balls (holds approx. 3,500 balls).
Colour 02: White price on request per item

No. M400 **Therapeutic balls**, 75 mm dia, assorted colours, 500 balls per sack. price on request per sack

Flame-retardant safety nets

These knotless, multi-filament polypropylene nettings in different colours and with flame-retardant properties are an important new development in that respect.

These safety nets can also be used outdoors without losing their flame-retardant properties.

The nets have been tested and meet the requirements of DIN 4102 (highly fire-resistant material).

No.	Diameter approx. mm	Mesh size approx. mm	Colours	€/m ²
203F050	1.5	50	●	€ 2,45
200F025	2.3	25	● ○	€ 7,50
200F045	2.3	45	● ○ ● ●	€ 4,10

Basketball Nets

Competition nets conforming to DIN EN 1270 in regulation dimensions: 50 cm long (40 cm when fitted).

Our competition nets were developed in cooperation with the Technical Standards Committee for Sports and Leisure Equipment. The net is designed to reduce basketball velocity, thereby ensuring scoring visibility.

- | | | |
|----------------|--|-------------|
| No. 224 | Basketball net in approx. 4 mm braided nylon conforming to DIN EN 1270.
Colour 02: White | € 3,55 each |
| No. 225 | Basketball net in approx. 6 mm braided nylon conforming to DIN EN 1270.
Colour 02: White | € 4,60 each |
| No. 226 | Anti-whip basketball net in approx. 6 mm braided polyester. The suspension loops have a certain rigidity which prevents the net whipping back.
Colour 02: White | € 5,50 each |

Recreational and practice nets for street basketball or games in the garden.

Our recreational and practice nets are a lighter version of our competition nets. We recommend these nets for outdoor games.

- | | | |
|-------------------|---|--------------|
| No. 222 | Basketball net in approx. 3 mm polyethylene cord.
Colour 02: White | € 2,40 each |
| No. 223 | Basketball net in approx. 3 mm braided nylon.

(while stocks last) | € 2,— each |
| No. 227 | Three-colour basketball net in approx. 4 mm braided polypropylene.
Colour: Blue/Green/Yellow | € 4,—each |
| No. 4677-2 | Basketball net, resistant to cuts and tears, in 5 mm Hercules rope.
Colour 01: Green | € 49,95 each |

No. 225-02

The Huck ice hockey goal nets used at the 2004 World Championships in the Czech Republic

Ice Hockey Goal Nets

Approved by the IIHF

- No. 147** Goal net in approx. **4 mm polyester**, 35 mm mesh, width 1.93 m, height 1.22 m, **top depth 0.50 m, bottom depth 1 m**, with additional 0.45 m arcs on each side (see photo). International design.
Colour 02: White € 152,— per pair
- Goal nets in "stiff" finish upon request!

Surcharge for smaller quantities (Spectator safety nets):

Nets under 5 m² + 100 % per net

Nets under 10 m² + 35 % per net

Nets under 20 m² + 20 % per net

Please also refer to the product information on pages 6.1 and 6.2.

When ordering loose hanging nets, the required length must be increased by approx. 20 %.

Ice Hockey Spectator Safety Nets

- No. 210-035** Spectator safety net in approx. **4 mm polyester**, 35 mm mesh.
Colour 02: White € 9,30 per m²
- No. 216-035** Spectator safety net in approx. **3 mm polyester**, 35 mm mesh.
Colour 02: White € 7,30 per m²

Ice Hockey Goal Catch Nets

- No. 141** Catch net in approx. **3 mm polyester**, 35 mm mesh.
Dimensions: 1.93 x 1.30 m.
Colour 02: White € 45,50 per pair
- No. 146** Catch net in approx. **4 mm polyester**, 35 mm mesh.
Dimensions: 1.93 m x 1.30 m.
Colour 02: White € 63,— per pair

Suitable for all ice hockey goal nets.

No. 120-01

Cycle Ball Goal Net

- No. 120** Goal net in approx. **3 mm high tenacity polypropylene**, 2 m high, 2 m wide, 80 cm deep, with a **mesh size of 10 cm**.
Colour 01: Green € 39,50 per pair

Cycle Polo Goal Net

- No. 121** Goal net in approx. **3 mm high tenacity polypropylene**, 2 m high, 2 m wide, 80 cm deep, with a **mesh size of 4.50 cm**.
Colour 01: Green € 83,— per pair

If you require another depth to comply with the new cycle ball regulations (between 30 and 60 cm at the top and between 60 and 80 cm at the bottom), please contact us stating the exact specifications of the goal.

Water Polo Goal Nets

- No. 115** Goal net in approx. **3 mm high tenacity polypropylene**, width 3 m, height 1 m, depth 80 cm.
Colour 01: Green € 35,50 per pair
- No. 116** Goal net in approx. **4 mm high tenacity polypropylene**, width 3 m, height 1 m, depth 80 cm.
Colour 01: Green € 55,— per pair

No. 115-01

Nets for Indica and Deck Tennis

- No. 506** **Deck tennis** and indica practice net in approx. **2.3 mm high tenacity polypropylene**. Also suitable as a prellball net. Dimensions: width 6 m, height 50 cm. € 16,— each
- No. 507** Indica tournament net in approx. **2.3 mm high tenacity polypropylene** conforming to German Gymnastics Federation (DTB) regulations. Dimensions: width 6.50 m, height 1 m, mesh 45 mm. Fitted with a white polyester headband and **11.70 m long Kevlar cable**.
Colour 01: Green € 49,— each
- No. 520** **29 mm powder-coated tubular steel posts** in three parts with adjustable tension cords and 4 ground anchors. For badminton, Indica and deck tennis. Maximum post height: 2.45 m € 54,— per set

We recommend using item 5023 to support indica tournament nets (see page 3.6).

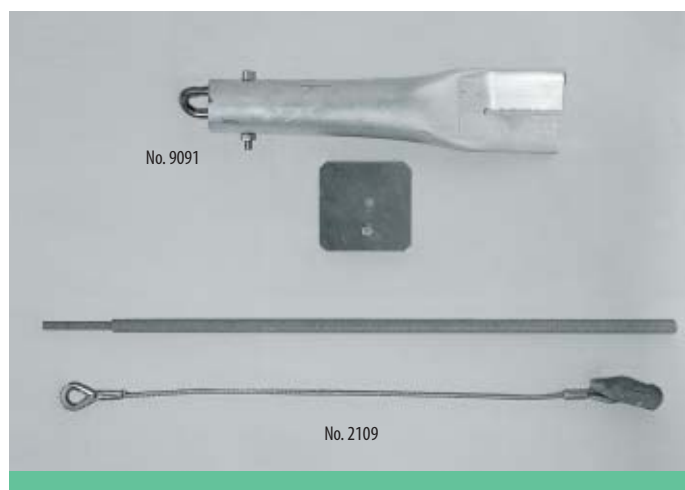

Sand pit cover for Beach-Volleyball

Sand pit cover

- No. 791** **Woven polyester mesh**, approx. **400 g per m²**, with hemstitch all the way round, incl. 4 corner cut outs. Colour 01: Green € 8,— per m²
- No. 7901** **Woven polyester mesh**, approx. **250 g per m²**, with hemstitch all the way round, incl. 4 corner cut outs. Colour 01: Green € 7,— per m²
- NEW**
- No. 799** **Made up** with additional reinforced cut-away corners. € 5,75 per m²
- No. 2100** **Galvanised steel wire rope**, approx. 6 mm in diameter. € 1,35 per metre
- No. 2023** **Stainless steel snap hook** with swivel eye. € 2,20 each
- No. 9091** **Aluminium sleeve** for installation in the ground. € 19,— each
- No. 2109** This **ground anchor** consists of a 3 mm steel wire cable, 40 cm long, and loop. It is knocked into the ground using a round bar, 45 cm long, and then removed. When the cable loop is pulled, the anchor turns diagonally in the ground becoming securely anchored. Resistance: approx. 100 kg € 26,— each

Hammer and Discus Safety Nets

Our hammer and discus safety nets are manufactured in approx. 5 mm high tenacity polypropylene.
All hammer and discus safety nets are edged with 8 mm rope along the top and down the vertical selvages.

Discus safety net for a standard 7-panel cage
(cage size: 7 x 2.74 m = 19.18 m).

No. 610 Hammer & Discus throwing safety net for 4 m high structures.
Net size: 4.50 x 21 m long. Surround ropes attached on lateral and upper edges of net with 8 mm dia. cord.
Colour 01: Green € 587,50 each

Discus safety net conforming to **new DLV (German Athletics Association) regulation 190.3** for a 7-panel cage with 2 additional 2 m wide tilting wings
(cage size: 5 x 3 m + 2 x 3.70 m + 2 x 2 m = 26.40 m).

No. 612 Discus safety net for a cage height of 4 m.
Net size: 4.50 m high and 27 m long.
Colour 01: Green € 699,50 each

Hammer throwing and discus safety nets for cages with 2 tilting panels 2 m wide. (cage size: 7 x 2.74 m + 2 x 2 m = 23.18 m).

No. 620 Hammer & Discus throwing safety net, like item 610 but for a cage height of 4.50 m that rises to 5 m at the sides.
Net size: rises from 5 to 5.50 m high, 25 m long.
Colour 01: Green € 799,50 each

No. 621 Hammer & Discus throwing safety net, as per No. 620, for 5 m high frames. **Net size:** 5.50 m x 25 m.
Colour 01: Green € 799,50 each

No. 630 Hammer & Discus throwing safety net, as per No. 620, for 5.50 m high frames. **Net size:** 6 m x 25 m.
Colour 01: Green € 1.015,— each

No. 640 Hammer & Discus throwing safety net, as per No. 620, but for panel heights rising from 7 to 9 metres in the wing area.
Net size: rising from 7.50 to 9.50 m x 26 m long.
Colour 01: Green € 1.550,— each

Where frames for double nets with a panel height of up to 5 m are used, Net 610 is used as the outer net and net No. 620 or 621 as the inner net. For panel heights up to 5.50 m net No. 621 is used as the outer net and net No. 630 as the inner net.

No. 635 Attachment system for lifting nets

Hammer throwing safety nets conforming to **new DLV regulation 192.3** for a 9-panel cage with 2 additional 2 m wide tilting wings
(**cage size:** 9 x 2.80 m + 2 x 2 m = **29.20 m**).

No. 650 Hammer throwing safety net for a cage height of 7 m rising to 10 m. **Diagonal mesh.**
Net size: 7.50 m rising to 10.50 m, approx. 31.50 m long
Colour 01: Green € 1.695,— each

No. 651 Hammer throwing safety net for a cage height of 7 m rising to 10 m. **Square mesh.**
Net size: 7.50 m rising to 10.50 m, 31.50 m long
Colour 01: Green € 2.125,— each
Colour 06: Black (**NEW**) € 2.125,— each

Please note: When ordering products no. 650 and 651, please be sure to give details of cage shape or attach a sketch!

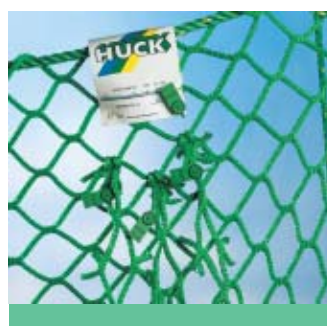

Accessories for Hammer Throwing Nets

No. 611 **Additional net** for portable support frames in case frame of 7 panels is supplemented with two additional frames. This set-up requires 2 nets of 2 m x 5.50 m. Material as No. 610.
Colour 01: Green € 213,— per pair

No. 635 **System for securing hammer throwing nets.** In order to make hammer and discus safety nets easy to assemble and dismantle, they are edged with 12 mm rope along the top and down the two front sides. Cable eyes and corresponding pull cords are integrated along the top for lifting the net (see photo). This system is suitable for all hammer and discus safety nets.
€ 143,— per system

No. 636 **Net ballast bag** made of small woven HDPE bands. Ballast not included. € 4,30 each

No. 637 **Set of 10 extra PP ropes**, approx. 6 mm thick and 10.80 m long, integrated into the height of the net with 1 rope per panel and attachment point. These ropes give the cage shape and prevent the netting from entering the throwing area. € 58,— per set

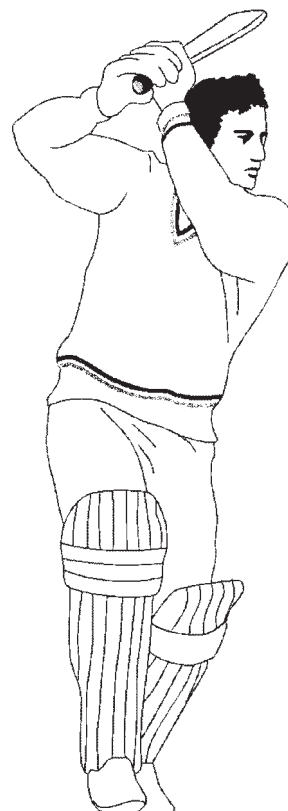

The Test-meshes are attached to the finished net with special seals to indicate that they are from the same net batch which ensures the required quality control standard.

Hammer throwing nets for other cage dimensions and indoor hammer throwing nets are available on request.

See page 6.3 for ball stopping nets in any dimensions required, in 2.3 mm dia., high tenacity polypropylene, mesh size 45 mm.
 Cricket netting for the professional – for indoors and outdoors.

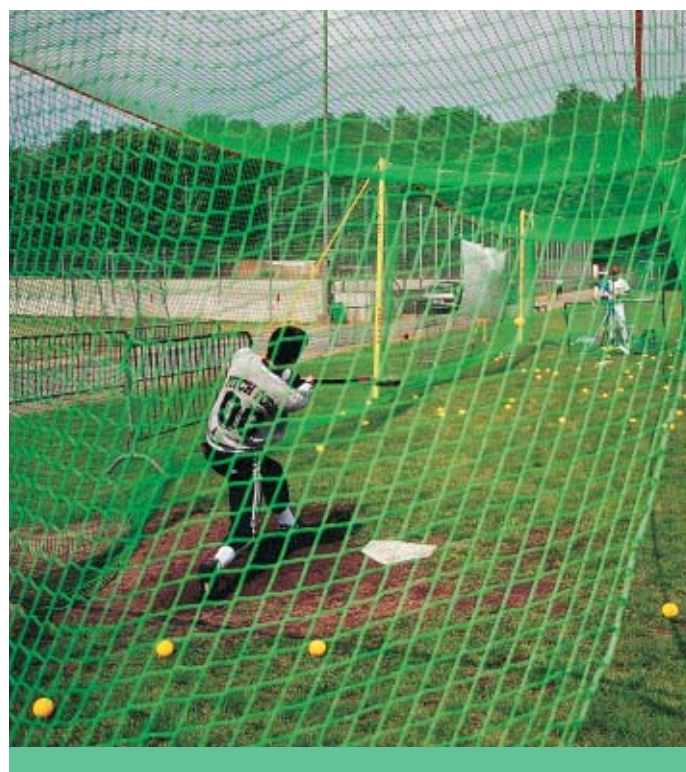

Baseball – a thriving sport from the USA

It is a sport that awakens both players and spectators' passions. Intensive training is necessary to learn the best way to hit the ball and a ball which has been hit correctly goes a long way. Bringing it back either requires a volunteer or a lot of effort. Therefore a training tunnel is essential for stroke practice.

No. 200-045 Ball control net for training tunnel in **2.3 mm high tenacity polypropylene**, mesh size 45 mm. Made to measure.
Colour 01: Green € 3,30 per m²

No. 209-045 Ball control net for training tunnel in **3 mm high tenacity polypropylene**, mesh size 45 mm. Made to measure.
Colour 01: Green € 4,10 per m²

For net attachment and tensioning accessories, see pages 6.5 and 6.6.

Archery Protection Nets

Our protective nets are suitable for archery as a sport. They are not suitable for hunting archery. When assembling, the nets must not be tensioned but left slack like a curtain. This type of system will efficiently collect stray arrows.

Each net should not be longer than 4 m.

When installing a number of nets an overlap of 50 cm is recommended. In the case of very intensive use, it is recommended that two layers of nets are installed.

No. 770 **Archery net** in very tightly woven polyester cloth, width 2.40 m, selvedge all the way round and fitted with eyelets every 30 cm on the upper section (see photo). These nets can be hung using steel cables, see the accessories on page 6.6.

Colour 01: Green € 59,50 per metre
Only available in standard width.

No. 771 **Archery net** in high tenacity polypropylene, approx. 510 g/m² in tightly woven, flame-retardant fabric, fitted with eyelets every 30 cm on the upper section, and selvedge all the way round, in any dimension.

Colour 01: Green € 19,50 per m²
Colour 02: White € 19,50 per m²
Colour 04: Blue **(NEW)** € 19,50 per m²

No. 770-04

 No. 5044-06-F40

Beach Volleyball Tournament Nets for a Playing Area of 8 x 16 m

In 2001, the world international volleyball federation, the FIVB, decided to adopt the rally point method of scoring for beach volleyball and reduce the size of the playing area for a trial period. The dimensions used in international tournaments are now 8 x 16 m instead of 9 x 18 m.

This means that volleyball nets and boundary markings of other sizes (8.50 x 1 m and 8 x 16 m respectively) are now required.

Tournament net with polyester rods sewn into the sides, black netting.
Dimensions: 8.50 x 1 m, mesh size 10 cm with an 80 mm wide, coloured band all the way round.

No. 512-06-F3 Beach volleyball tournament net in approx. **3 mm knotless polypropylene** with a 10.70 m Kevlar cord at the top and tensioning rope at the bottom. polyester band at the sides with fibreglass dowel reinforcement, 4-point suspension and 4 tensioning cords with snap lock. 80 mm wide, neon yellow band all the way round.
 € 99,50 each

Our boundary marking No. 555 (page 9.3) can be adjusted to 8 x 16 m and is therefore suitable for use with this item.

Beach Volleyball Training Nets for a Playing Area of 9 x 18 m

We now offer beach training nets **in yellow** with a blue headband.

Leisure and training nets in regulation dimensions: 9.50 x 1 m, mesh size 10 cm with an 11.70 m steel cable (3 mm dia.) at the top and coloured headband.

Badminton-Nets Set for Leisure, with integral fibreglass/polyester posts

No. 6200-01 **Badminton net for leisure** in rot-proof knitted polyethylene. Integral fibreglass/polyester net posts can be fitted together, which reduces their length for transportation. Quick and easy to assemble.

One set consists of: 1 Leisure Badminton net (length 6 m, height 70 cm) with integral polyester/fibre glass poles.
Pole length: approx. 1.80 m (90/90)
Pole dia.: 12 mm
2 tension cords and 4 ground anchor pins.
€ 37,50 each

Packing: in attractive sales box with 3 photographs showing use of the equipment.

Leisure Tennis Net Set with integral fibreglass/polyester posts

No. 8200 Manufactured in **rot-proof knitted polyethylene**. The integral, flexible fibreglass reinforced polyester net posts have the advantage that they are permanently fixed to the net and therefore cannot be lost. The net is also therefore extremely easy and quick to set up. Complete with 2 guy ropes and 2 anchor pins.
€ 28,— per set

Length: approx. 6.00 m
Height: approx. 0.80 m
Post length: approx. 1.10 m
Post dia.: approx. 12 mm

Particularly suitable for leisure sport and camping.

NEW **No. 1545-045** Small pitch goal net made of approx. **4 mm high tenacity polypropylene**, with additional edging cord in the goal area.
Mesh size: approx. 45 mm.
Colour 01: Green € 175,— per pair

These goal nets have an additional cord in the goal area.

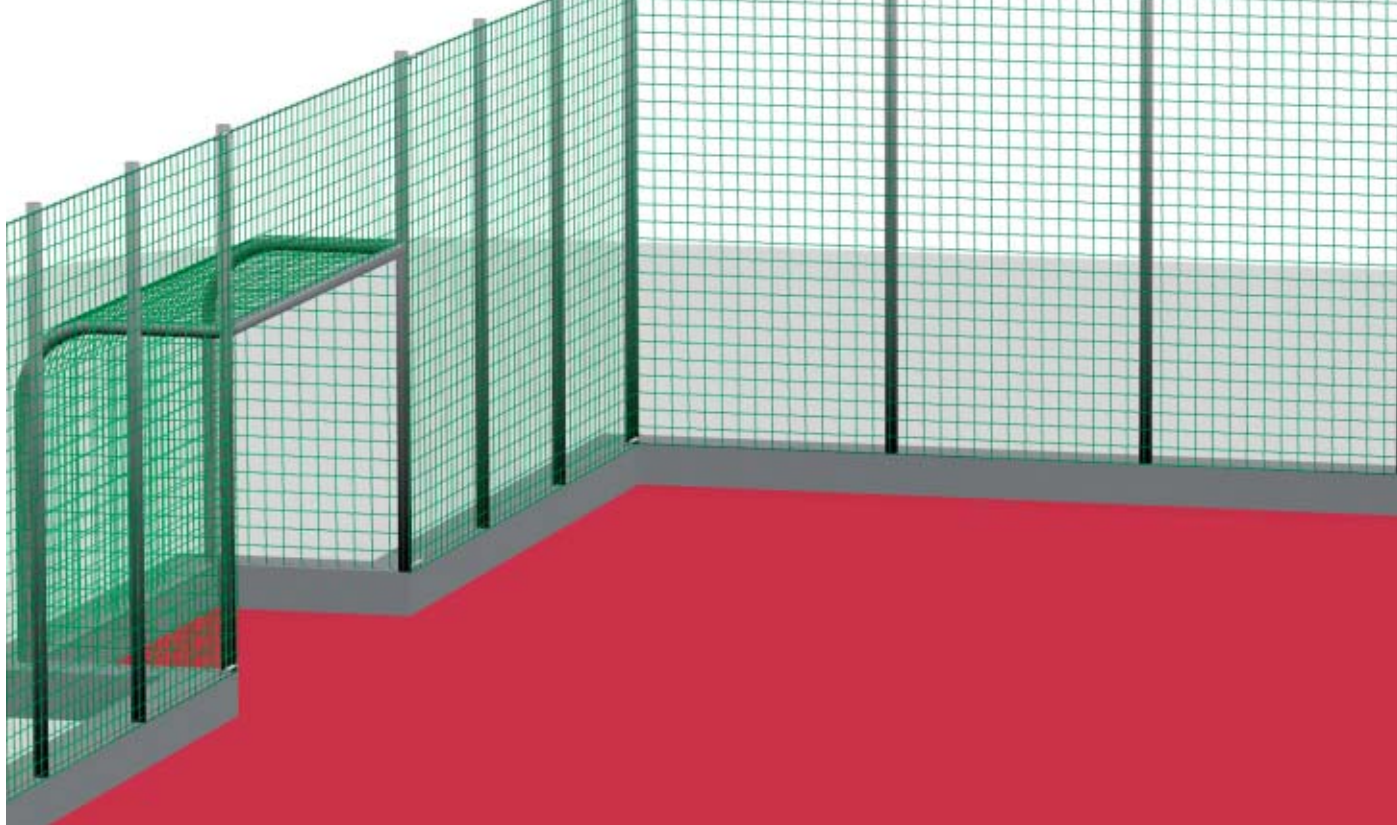

Where possible, these nets should not be pulled over the frame, but, where possible, they should be drawn tight with the elastic cord in the goal frame area.

Alternatively nets can be threaded onto the frame. In this case a diagram of the goal is needed to determine the right mesh size and dimensions!

Football area nets with diamond mesh size see Page 10.4!

Net with additional edging cord in the goal area

Safety nets for small play areas and multi-sports facilities

For freely accessible multi-sports complexes in accordance with EN 15312 up to 3m in height there are the following mesh size restrictions:

- No. 912** **All-weather net** in coated polyester material,
approx. 9.5 x 0.75 m, mesh width approx. 40 mm, also possible
to use as a **multi-game net**, top band with approx. 11.7 m
steel rope and a white PVC band along the top, fastening cords
on all 4 corners.
Colour 06: Black € 125,— each

Sun sail For sandpits, pools, etc.

Our sun sails are made of air and water permeable PE material and reduce solar radiation. They prevent heat accumulation, build up of mildew and decay and are long life.

- No. 722** **PE fabric, approx. 200 g/m²**, hemmed, with loops spaced
approx. every 0.5 m, with **additional** strengthening band.

Finishes possible in nearly all individual sizes and shapes
You plan – we deliver according to your specifications!

Anti-Vandalism Nets

Who is not familiar with the problem of nets that are cut up or burnt down on public playgrounds and sports areas?

Of course, wire-mesh or metal fences can be used. However, these products absorb hardly any of the noise they produce and when played against with balls etc. generate a lot of noise that disturbs the whole neighbourhood.

Textile products are ideal for noise protection; steel or wire products are ideal for protection against vandalism.

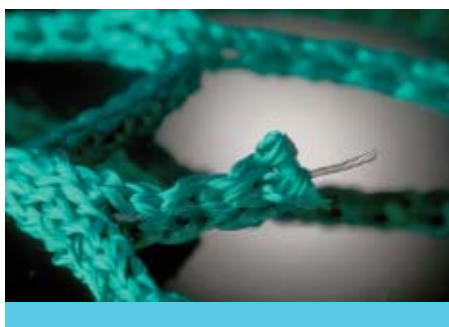

In order to be able to offer products that satisfy both requirements, we have developed three different products that, depending on the thickness of the steel core, ensure different levels of protection against vandalism and noise.

Product	Thickness of steel core	Textile coating	Total thickness	Mesh stability	Vandalism protection	Noise protection
Mahulan Steel (high tenacity PP)	1.25 mm (wire strand)	3.5 mm	4.75 mm	approx. 2.5 kN	x (light)	xxx (strong)
Reinforced textile net	2.5 mm (steel wire)	2.5 mm	5 mm	approx. 0.5 kN	xx (medium)	xx (medium)
Dralo®	1.5–6 mm (steel wire)	without	1.5–6 mm	approx. 0.8–3.5 kN	xxx (strong)	xx (medium)

Thanks to their steel core or steel wire, all the products offer a better protection against vandalism than purely textile nets.

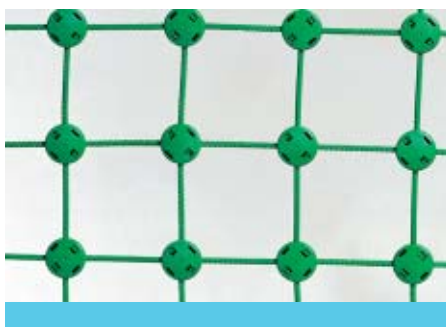

“Mahulan Steel”

A completely new product from HUCK.
A machine-made safety net with a stainless-steel core (wire strand) (DBGM 20 2006 011 018) with the product name "Mahulan steel".

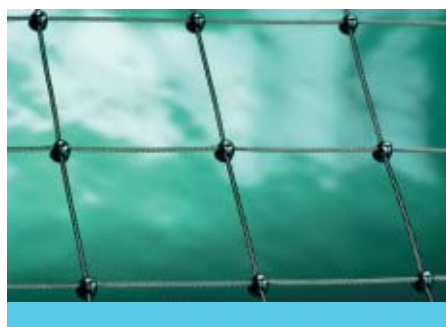

Reinforced Textile Net

Steel wire coated with polypropylene (2.5/5mm), clipped together with plastic knot clips to form a square-mesh net

Dralo®

Dralo® the new wire rope net:
- Discreet design
- Extreme force is required to damage it
- No rattling noise on contact with the ball

Knotless antivandalism net "Mahulan steel" with stainless-steel, wire-strand core

To the eye, this knotless net scarcely looks any different from our normal textile nets, but it has a stainless-steel, wire-strand core as vandalism protection and at the same time offers a high level of noise absorption. **The soft net with the hard centre.**

**Mesh size: approx. 105 mm, square mesh
(in 2 different standard widths)**

No. 9830-105 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.

Mesh size approx. 105 mm

Fixed width of nets: 3 m

Colour 015: Dark green € 16,— per m²

No. 9840-105 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.

Mesh size approx. 105 mm

Fixed width of nets: 4 m

Colour 015: Dark green € 16,— per m²

No. 9820-105 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.

Mesh size approx. 105 mm

Fixed width of nets: 2 m

Colour 015: Dark green € 18,— per m²

NEW

**Mesh size: approx. 60 mm, square mesh
(in 2 different standard widths)**

No. 9830-060 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.

Mesh size approx. 60 mm

Fixed width of nets: 3 m

Colour 015: Dark Green € 27,50 per m²

No. 9840-060 "Mahulan steel" knotless stop net, approx. 1.25/4.75 mm high tenacity flame-retardant polypropylene.

Mesh size approx. 60 mm

Fixed width of nets: 4 m

Colour 015: Dark Green € 27,50 per m²

Mahulan Steel:

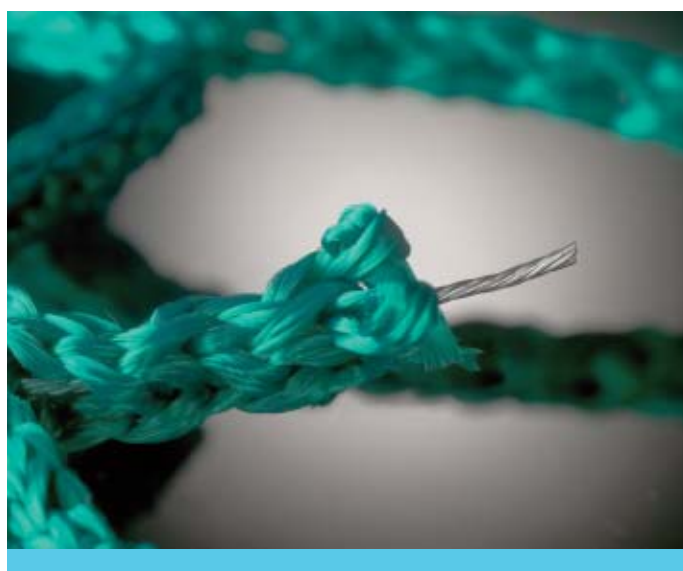

- Discreet design
- Extreme force is required to damage it
- No rattling noise on contact with the ball

Surcharges for minimum quantities:

Nets under 5 m² + 100 %

Nets under 10 m² + 35 %

Nets under 20 m² + 20 % for each net.

No. 996-01

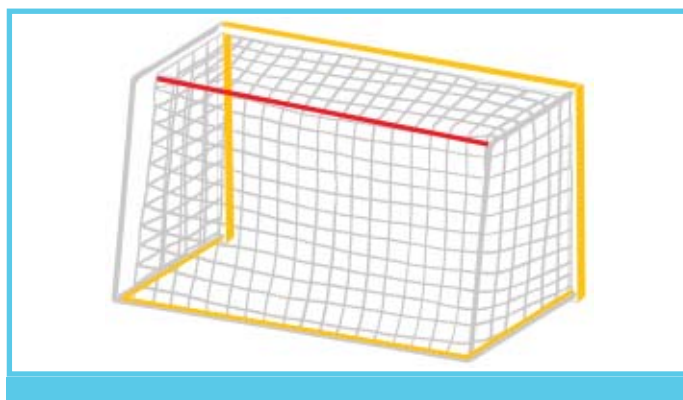

"Mahulan steel" knotless goal net with stainless-steel, wire-strand core

Dim.: width 7.50 m, height 2.50 m, top depth 0.80 m, bottom depth 1.50 m

No. 996 "Mahulan steel" knotless goal net in flame-retardant **high tenacity polypropylene**. Material strength approx. 1.25/4.75 mm, mesh size approx. 100 mm, **square mesh layout**, including PA- coated tension cords (see drawing).
Colour 01: Green € 895,— each

Dimensions: width 3 m, height 2 m, top depth 0.90 m, bottom depth 1.10 m

No. 9964 "Mahulan steel" knotless goal net in flame-retardant **high tenacity polypropylene**. Material strength approx. 1.25/4.75 mm, mesh size approx. 100 mm, **square mesh layout**, including PA- coated tension cords (see drawing).
Colour 01: Green € 345,— each

Caution: to ensure that they last a long time the goal nets should, in principle, be hung up only **within** the goal posts.

The net should never be pulled over the frame.

Replacement tension cords

No. 46644 **Tension cord** made of encased (patent pending) steel cable, approx 3/4.5 mm thick, including 2 screw clips, one side with pressed-on loop.
Length: 1 unit of 3.50 m (**coloured red for the rear upper goal depth**) € 9,50 each

No. 46645 **Tension cord** made of encased (patent pending) steel cable, approx 3/4.5 mm thick, including 2 screw clips.
Length: 1 unit of 12.50 m (**coloured yellow for the goalmouth area and the lower end of the goal**) € 27,50 each

This cord enables the net to be fixed mesh by mesh to the floor area.

Replacement tension cords for no. 996-01 on request!

Main picture: practice pitch goal net no. 9964-01 / **Detail:** additional tension cords

No. 4064

Anti-theft tension cord for assembly

Dralo® Practice Pitch Goal Net

No. 4064

Dralo® practice pitch goal net made of galvanized steel wire cables, approx. 3 mm thick.
 Net size: 3 m wide, 2 m high, 0.90 m deep at the top and 1.10 m deep at the bottom.
 Mesh size: approx. 10 cm, **square mesh**.
 Includes anti-theft tension cord assembly.

€ 892,70 each

Practice Pitch Goal Net

No. 4664

Practice pitch goal net in polypropylene with steel core (reinforced textile net), approx. 2.5/5 mm dia. Suitable for handball goals that conform to DIN EN 749 with net frame.
 Net size: 3 m wide, 2 m high, top and bottom depth 0.90 m.
 Mesh size: 10 cm, **diagonal mesh**.
 Colour: Green

€ 494,50 each

No. 4764

NEW

Practice pitch goal net like no. 4664, but made from polyester with a steel core (clip net). This gives the net even better abrasion resistance.
 Colour 01: Green

€ 579,90 each

Now considerably improved: with additionally included protective tension cord made of encased (patent pending) steel cable, approx 4.5 mm thick in the:
 - rear upper goal depth (length: 3.50 m)
 - goalmouth area and the lower end of the goal depth (length: 12.50 m)
for the protection of the outer mesh rows, see also Page 10.3.

NEW: with **additional** scratch protection around the edge made from high-quality polyamide loops (see small picture)

Caution: to ensure that they last a long time the goal nets should, in principle, be hung up only **within** the goal posts.

The net should never be pulled over the frame.

Scratch protection for no. 4664 + 4761

No. 4664

No. 4674

Reinforced Volleyball Nets

These nets can be used in a wide variety of ways and the HUCK system of knots is used to reinforce different mesh and net sizes for all types of sport.

No. 4674 **Volleyball net equipment**, ready to install complete with beams, tensioning cords at the sides and volleyball net in polypropylene with steel core (reinforced textile net), approx. 2.5/5 mm dia., 1 m x 9.50 m, mesh size 100 mm (supplied ex works).
Colour: Green € 1.714,20 each

No. 4674-1 **Volleyball net in polypropylene with steel core** (reinforced textile net), approx. 2.5/5 mm dia., 100 mm mesh.
Dimensions per International standards: 1 m x 9.50 m.
Colour: Green € 1.290,10 each

Dralo® Volleyball Nets

An attractive volleyball net that cannot be cut.

No. 4074-1 **Volleyball net made of galvanised steel wire ropes (Dralo®)**, approx. 2 mm in diameter, with a mesh size of 100 mm. The net measures 1 m x 9.50 m in accordance with international regulations.

For use with standard volleyball posts.

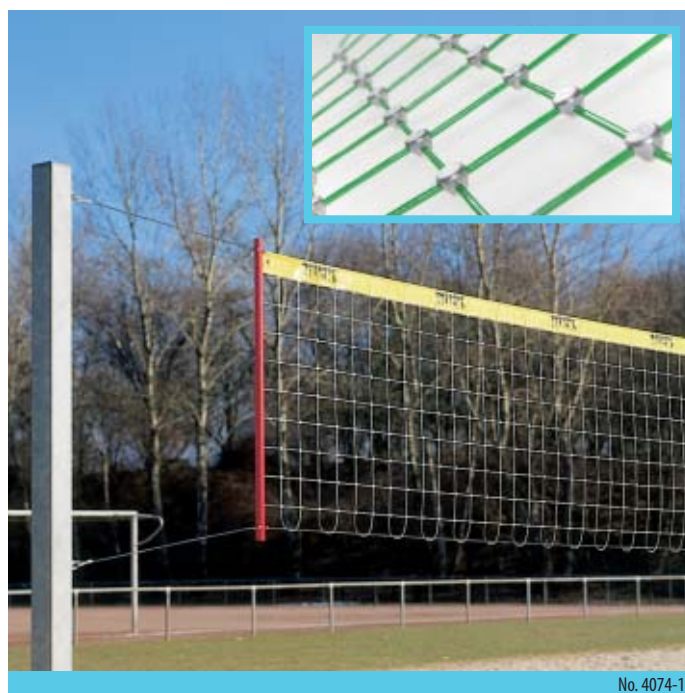

Tape, 160 mm wide, made of coated woven fabric and bearing the Huck logo.

€ 824,30 each

No. 4074-2 **Volleyball net** as no. 4074-1, but **PA-coated steel rope 1.8/2.5 mm**, in green (see small picture).

€ 945,— each

See page 9.3 for boundary marking (item 555-04).

No. 4074-1

Further information about Dralo® can be found on page 10.7.

Equipment for Neighbourhood Playgrounds as multi-functional games equipment in residential areas.

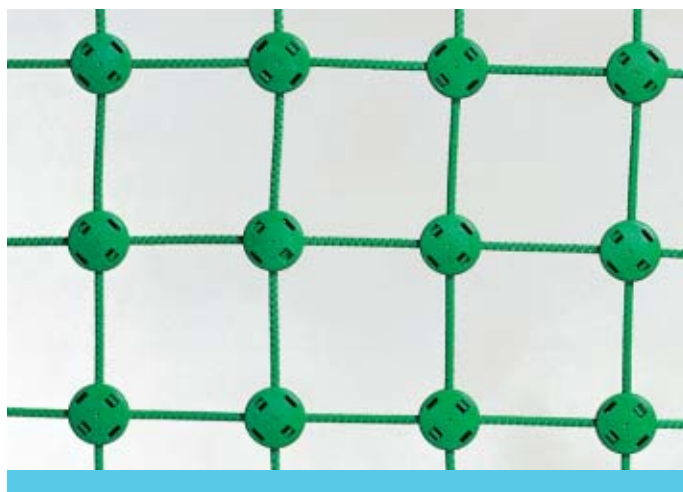

Multifunctional games equipment has an important social function in residential areas. A place where the young can meet and unwind, on their own, or as a team, without running the risk of breaking windows or urban property by accident. Equipping these facilities with anti-vandalism sports nets not only makes them extremely durable but also improves the quality of residential areas.

No. 4305-100 Safety & stop nets in polypropylene with steel core (reinforced textile net), approx. 2.5/5 mm dia., 100 mm mesh. Devised to partition fields or to stop balls behind goal posts. Colour 01: Green price on request

When used as a vandal-proof ball stop net, our Hercules net has better sound-absorbing properties than wire mesh netting or a steel-lattice fence.

The emission noise-pressure level was measured according to EN ISO 11202.

Dralo® Anti-Vandalism Nets

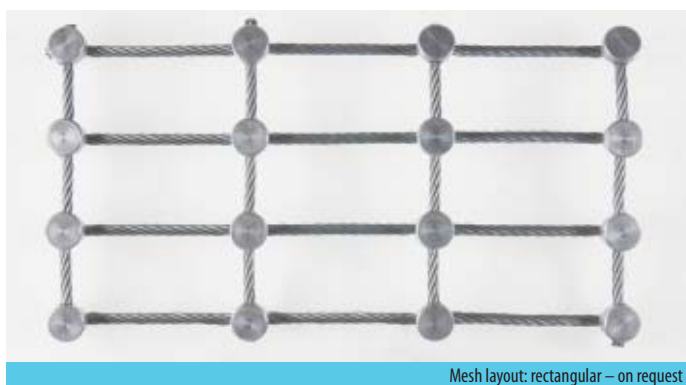

Dralo anti-vandalism nets have a modern and attractive appearance. These mechanically produced wire rope nets have a square mesh. They are aesthetically pleasing in spite of their strength. These nets are supplied for use as practice pitch goal nets and safety nets (e.g. stop nets for balls).

When ordering safety and stop nets, please specify whether you require the galvanised or stainless steel design.

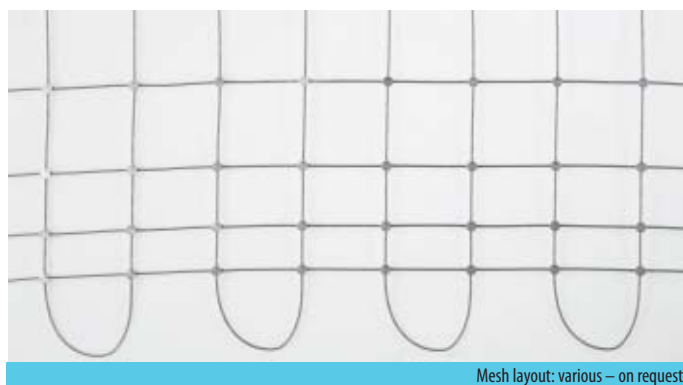

Nets can be supplied with the following mesh sizes (MS)/rope diameters: Price on application

	MS 25 mm	MS 50 mm	MS 75 mm	MS 100 mm	MS 125 mm	MS 150 mm	MS 175 mm	MS 200 mm

Prices, colours, mesh layouts and finishes on request!

Mesh layout: rectangular – on request

Mesh layout: various – on request

Important technical specifications for Dralo® Nets

DRALO® nets are available in the following versions:

- a) Galvanised steel wire with aluminium clips
- b) 1.4401 high-grade steel wire with high-grade steel clips
- c) 1.4401 high-grade steel wire with aluminium clips

Installation / net finishes

DRALO® nets are made with a square mesh. Due to the way the mesh is laid, every other row finishes in a loop all the way round the edge.

These loops are used to fasten the net, either using a steel edge line wire drawn through them and then tightened, or by hanging the loops directly in rings.

Please request a detailed offer for the many installation possibilities.

Weight-bearing capacity / breaking strengths

When used for safety or stop nets, it must be borne in mind that Dralo® creates a rigid net that has a lower, more uneven energy absorption than nets in plastic cord.

Breaking strengths for the steel wire used correspond to the standard tables.

The lateral displacement force where the wires cross has been significantly improved, and now lies between 80 kg and 350 kg.

Critical factors in an overall assessment are:

- a) fixing method and
- b) the total size of the nets.

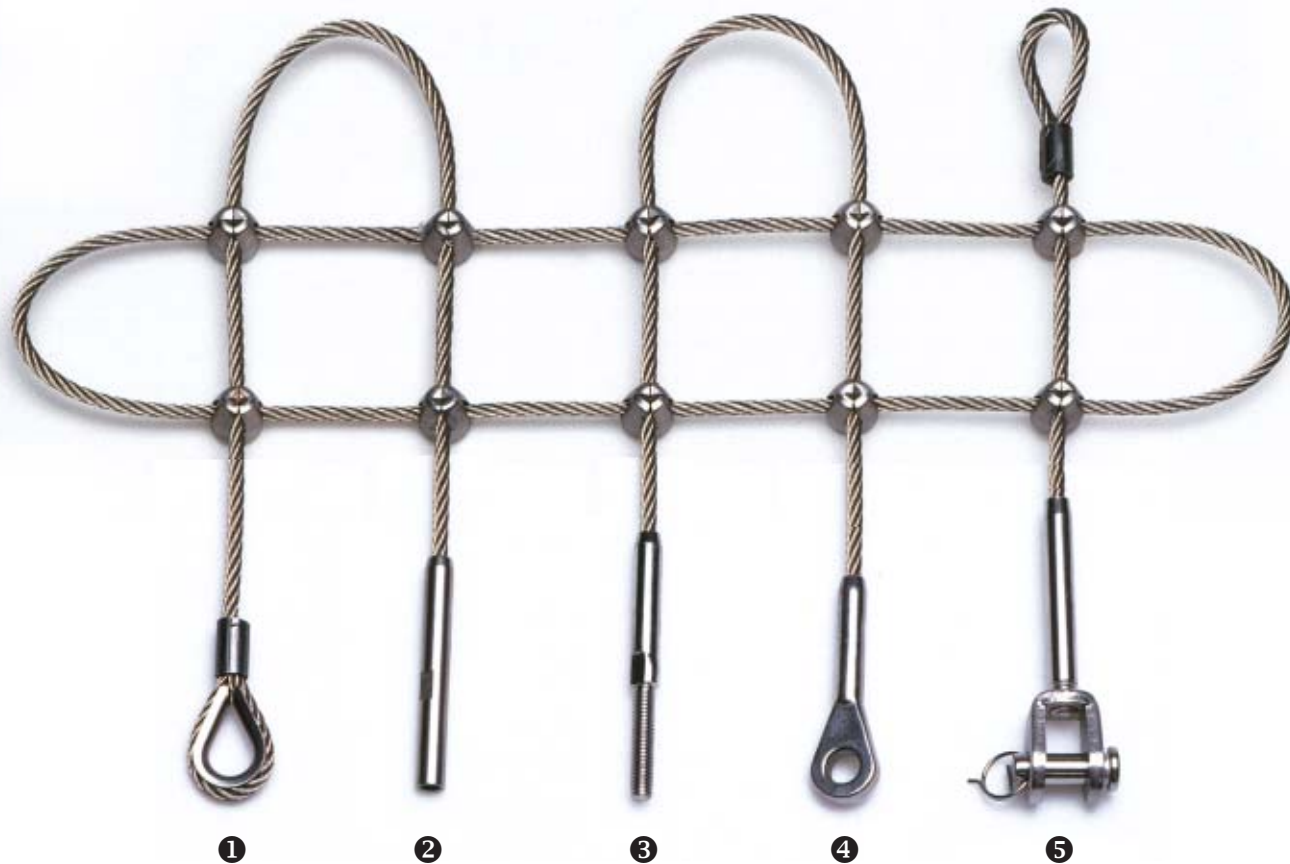

The maximum width of individual nets without connective fastenings is 5 m; their weight should not exceed 300 kg.

IMPORTANT: If installing nets yourself, take care that they are not trapped or stretched. Trapped or stretched nets are noticeably weaker around the edges due to the resulting shear forces and/or additional tension.

Please request a detailed offer for your particular area of application.

Used to cover railings on an external terrace

DRALO®-nets can be equipped with the following alternative fittings:

- ① Looped eye
- ② Female thread fitting
- ③ Thread fitting
- ④ Eye fitting
- ⑤ Forked fitting

Breaking strengths of wire ropes

Galvanised wire ropes			Stainless-steel wire ropes, material 1,4401

TERMS AND CONDITIONS OF SALE

Extract from the Conditions of Sale of the Company – Full Conditions of Sale are available on request

These terms and conditions form an essential part of the purchase agreement. The placing of an order on the part of the buyer shall be deemed as acceptance of these terms and conditions. Any variation of conditions of the buyer is for us even then non-binding, unless we do not formally object to them.

Quote: All quotes on the basis of this list are subject to confirmation, without obligation and are not bound to the acceptance of an order. Quotes over the telephone require confirmation. In case of doubt written confirmation shall apply.

We reserve the right to any technical changes, which are in the interest of further development of our product.

Ordering units: We are entitled to amend, without further enquiry, different ordering quantities to the next volume packaged unit.

Custom-made products: These are as a matter of principle excluded from our exchange and returns policy, unless they are found to be with defects.

If nets are custom-made with a square mesh, it is technically not possible to supply all net sizes without a seam.

All nets are manufactured in the greatest possible width in a diagonal mesh and converted to a square mesh. The resultant seams cannot be avoided technically and do not compromise the quality.

Prices, Packaging: The prices are net (without VAT).

All previous price lists are not valid with the arrival of this catalogue!

Our prices are in this respect non-binding, when after the publication of this catalogue, essential changes to raw material prices and salaries arise and as a result the costing fundamentals can no longer be met. Our prices are calculated "ex factory" including packaging.

Net goods value from € 1.000 for abroad and overseas are delivered free to German border and fob (free on board) to German international ports.

Payment terms: Payment method for abroad is by means of irrevocable letter of credit, or payment in advance with a 4% reduction for advance payments.

Late payments will incur 1% interest charges per month from the 31st day after the date of invoice. In the event of late payment we are entitled to charge the debtor any collection costs incurred by any necessary legal measures or those settled out-of-court.

Small orders with a value less than € 25 without VAT incur a handling charge of € 5 net. Deliveries with a total value less than € 50 are not entitled to discount.

Delivery arrangements: On the part of the buyer prescribed delivery terms and their acceptance do not signify a delivery undertaking. No claims can be made on a breach of delivery terms. Force majeure as well as strikes carried out by us or our suppliers shall release the delivery obligations.

In respect of any failure to deliver due to any of the afore-mentioned circumstances the delivery terms shall be extended appropriately.

Notice of defects: Notice of defects in respect of weight, quantity or quality can only be made effectively within eight days after receipt of delivery provided that the buyer is a trader in terms of §310 BGB (German Civil Code). Besides notice of defects in respect of obvious defects are disregarded if they are not made within an 8 day period after receipt of delivery. It is important that the seller is in receipt of the notice of defects for the computation of the time limit of eight days.

Returns shall only be accepted with prior written agreement, otherwise delivery shall be refused.

Guarantee: The legal provisions shall apply.

Our nets are textile products, the properties of which can be damaged by UV rays.

Therefore the net material is UV stabilised which however only gives extra protection. The guarantee refers solely to the properties guaranteed in a new condition which naturally includes the customary addition of UV stabilizers.

For this reason the manufacturer's test specifications (mesh testing) are to be observed without fail in the use of protection safety nets.

Retention of Title: All sales are based on §449 BGB (German Civil Code). All goods delivered by us remain our property until the account receivables has been settled in full. Should the goods be sold on before payment is received, then the purchase price receivable shall be surrendered to us in its place. Garnishment or any other damnification of our property right is to be immediately reported.

Place of Fulfilment: The place of fulfilment for deliveries and payments is Asslar-Berghausen. Place of jurisdiction deemed to be agreed by the placing of an order and the confirmation of an order for both parties is District Court Wetzlar/ County Court Limburg, provided that both parties are companies.

Notes:
